Lycra describes the development of a specific fabric, but in the process provides students with rare insights into U.S. corporate history, the changing image of women in America, and how a seemingly doomed product came to occupy a position

never imagined by its inventors and contained in the wardrobe of virtually every American. And it will generate lively discussion of the story of the relationship between technology, science and society over the past half a century.

Lycra: How a Fiber Shaped America. By Mary O'Hara '12. If you happen to be wearing clothes right now, chances are you're wearing Lycra. At least a small amount, perhaps woven into the laces of your shoes or the elastic

band of your underwear. And if you're not wearing any clothes as you read this, well . . . odds are the Dupont corporation is somehow involved in whatever it is you are doing.

LYCRA® fiber is the trademarked brand name of a class of synthetic elastic fibers known as spandex in the U.S., and elastane in the rest of the world. Any company that produces generic, or non-brand name elastic fibers, refers to them as spandex or elastane. These terms are

interchangeable and there is no difference between them, but only The LYCRA Company produces authentic LYCRA® brand fibers.
