Likewise, Joe Iarocci, author of *Servant Leadership in the Workplace*, identifies three key priorities (developing people, building a trusting team, achieving results), three key principles (serve first, persuasion, empowerment) and three key practices (listening, delegating, connecting followers to mission) that distinguish servant leadership in the workplace context.

To lead is not to be “the boss,” the “head honcho,” or “the brass.” To lead is to serve. Although serving may imply weakness to some, conjuring up a picture of the CEO waiting on the workforce hand and foot, servant leadership is actually a robust, revolutionary idea that can have significant impact on an organization’s performance. Jim Hunter champions this hard/soft approach to leadership, which turns bosses and managers into coaches and mentors. By “hard,” Hunter means that servant leaders can be hard-nosed, even autocratic, when it comes to the basics of running the business: determining the mission (where the company is headed) and values (what the rules are that govern the journey) and setting standards and accountability. Servant leaders don’t commission a poll or take a vote when it comes to these critical fundamentals. After all, that’s what a leader’s job is, and people look to the leader to set the course and establish standards. But once that direction is provided, servant leaders turn the organizational structure upside down. They focus on giving employees everything they need to win, be it resources, time, guidance, or inspiration. Servant leaders know that providing for people and engaging hearts and minds foster a workforce that understands the benefits of striving for the greater good. The emphasis is on building authority, not power; on exerting influence, not intimidation. While many believe that servant leadership is a wonderful, inspiring idea, what’s been missing is the how-to, the specifics of implementation. Jim Hunter shows how to do the right thing for the people you lead. A servant leader or a self-serving leader: Which one are you? With Jim Hunter’s guidance, everyone has the potential to develop into a leader with character who leads with authority.

SERVANT LEADERSHIP FOR HIGHER EDUCATION "Given the myriad of complex problems facing higher education, it is difficult to imagine that an administrator at any level of the institution could be effective without engaging in servant leadership. Higher education is a service industry and, consequently, this text is a must read for practicing administrators who are committed to effective leadership." –MARY LOU HIGGERSON, Ph.D., vice president for Academic Affairs and dean of the college, Baldwin-Wallace College "Finally a thoughtful book on servant leadership with direct application to higher education. The church is experiencing a leadership crisis. What can we do to prevent pastors from leaving the ministry? For every celebrity pastor exiting the ministry in the spotlight, there are many more lesser-known pastors leaving in the shadows. Pastor and best-selling author Paul David Tripp argues that lurking behind every pastoral failure is the lack of a strong leadership community. Tripp draws on his decades of ministry experience to give churches twelve gospel principles necessary to combat this leadership crisis. Each of these principles, built upon characteristics such as humility, dependency, and accountability, will enable new and experienced leaders alike to focus their attention on the ultimate leadership model: the gospel.

A Practical Guide to Using the Principles of Servant Leadership Leadership is a calling. And servant leadership—the idea that managing with respect, honesty, love, and spirituality empowers employees—helps individuals answer that calling. Bestselling author and former Fortune 500 executive James A. Autry reveals the servant leader's tools, a set of skills and ideals that will transform the way business is done. It helps leaders nurture the needs and goals of those who look to them for leadership. The result is a more productive, successful, and happier organization, and a more meaningful life for the leader. Autry reveals how to remain true to the servant leadership model when handling day-to-day and long-term management situations, including how to:

- Provide guidance during conflict and crisis
- Assure your continued growth and progress as a leader
- Train managers in the principles of servant leadership
- Transform a company with morale problems into a great place to work

Practiced by one-third of the companies on Fortune's "100 Best Companies to Work For" list, servant leadership is a thriving philosophy. Ultimately, Autry explores how it can be a valuable, refreshing, and rewarding approach to leading others in business life.

"The only way to create great relationships and results is through servant leadership. It's all about putting other people first." – from the foreword by John Maxwell We've all seen the negative impact of self-serving leaders in every sector of our society. Not infrequently, they end up bringing down their entire organization. But there is another way: servant leadership. Servant leaders lead by serving their people, not by exalting themselves. This collection features forty-four renowned servant leadership experts and practitioners—prominent business executives, bestselling authors, and respected spiritual leaders—who offer advice and tools for implementing this proven, but for some still radical, leadership model. Edited by legendary business author and lifelong servant leader Ken Blanchard and his longtime editor Renee Broadwell, this is the most comprehensive and wide-ranging guide ever published for what is, in every sense, a better way to lead.

Those who chair church boards deserve our prayers and respect. Often with little preparation or experience, they step up to lead the primary spiritual leadership team within a local congregation. When they need help, they have to search long and hard to find resources that respond to their specific questions and concerns. The Art of Kubern?sis (1 Corinthians 12:28): Leading as the Church Board Chairperson fills this gap. It takes the best ideas about chairing nonprofit boards being discussed today and carefully evaluates them. Those ideas that are compatible with biblical values and the unique nature of a church congregation contribute to this "map" for church board chairpersons. Although its primary frame of reference is congregational polity, the principles discussed can help anyone who chairs a faith-based nonprofit board.

Twenty-five years ago Robert Greenleaf published these prophetic essays on what he coined servant leadership, a practical philosophy that replaces traditional autocratic leadership with a holistic, ethical approach. This highly influential book has been embraced by cutting edge management everywhere. Yet in these days of Enron and what VISA CEO Dee Hock calls our "era of massive institutional failure," Greenleaf's seminal work must reach the mainstream now more than ever. Servant Leadership--?helps leaders find their true power and moral authority to lead.?helps those served become healthier, wiser, freer, and more autonomous.?encourages collaboration, trust, listening, and empowerment.?offers long-lasting change, not a temporary fix.?extends beyond business for leaders of all types of groups.
