For Johnson, after 1968 the  
year was incorporated in the  
model number as explained  
below. 6R69-6RL69 = 1969. As  
a model 6R78SC, would  
indicate a 6hp, Ropestarter,

You may ignore any letters before the horsepower designation, and those after any of the following model numbers that match yours (e.g. your 20 HP model # J 20R69 M would match 20R69 in the chart, ignoring the "J" and "M")

Prior to 1969, Johnson model numbers were year-specific; serial numbers were used in identification. Johnsons from the 1969 to 1979 era use the last two digits of the year at the end of the model number to identify the model year; for example, a Johnson model number ending in "-4RL79" was built in 1979.
