Presents easy-to-follow instructions with decorating ideas for cupcakes featuring classic flavors and shapes to recipes for special diets and special occasions.

Whether it's their individual size, their pretty frosting, or just their ability to bring back fond memories of childhood - cupcakes really do have ultimate treat-appeal. Every generation loves them, and even the most curmudgeonly among us find it hard not to smile when presented with a plateful of cupcakes. Cupcakes come in many shapes and guises, but the one thing they all have in common is their small, individual size and the fact that they are baked in a muffin pan or cup-shaped moulds, which are often lined with a crimped foil or paper case. Almost any cake batter can be baked in a cup-shaped mould to make cupcakes. Classic yellow cake or pound cake mixtures are particularly popular, but gingerbread, carrot cakes, fruit cakes, yeasted cakes and brownies can all be transformed into cupcakes. Whether it's a smear of cream cheese frosting or an intricately decorated cake topped with fondant decorations - it's the topping that often provokes the greatest delight. Children and adults alike will love helping to decorate the cakes, and it can make a fun afternoon activity before you even get round to sitting down with a glass of milk to enjoy them. Once you get started on the recipes in this book, you'll realize just how fun baking and decorating cupcakes can be - and you might just find yourself with a new hobby!

A practical way to think about money today Author and CNN veteran money correspondent Christine Romans believes we should live by three qualifiers: living within our means, living with less debt, and being less vulnerable. While some may say this is old-fashioned, today it's hard to argue with Romans' view. Smart is the New Rich explores how adopting a new approach to money can lead to a healthier financial lifestyle. Each chapter opens with a question about money to begin the conversation about earning, saving, spending, growing, and protecting your money. Using checklists and quizzes, Romans guides you through the "New Normal," helping you to think differently about your money and relearning good habits for prosperity. Reexamines the money rules abandoned during the consumer bubble and poses the essential questions we should ask ourselves before spend our money Provides an interactive, step-by-step guide to all things money, from credit, debt, and savings to investing, taxes, and mortgages A companion Web site allows you to chat with other readers about jobs, mortgage rates, investing, and saving For thirty years, the financial rules for life revolved around abundant credit. That bubble has burst. Smart is the New Rich addresses why these rules no longer apply, and reveals what it will take to make the right money choices moving forward.
