Car manufacturing juggernaut—the \$3 trillion automotive industry—is in the throes of a revolution. Its future will include cars Henry Ford and Karl Benz could scarcely imagine. They will drive themselves, won't consume oil, and will come in radical shapes and sizes. But the path to that future is fraught. The top contenders are two traditional manufacturing giants, the US and Japan, and a newcomer, China. Team America has a powerful and little-known weapon in its arsenal: a small group of technology buffs and regulators from California. The story of why and how these men and women could shape the future—how you move, how you work, how you live on Earth—is an unexpected tale filled with unforgettable characters: a scorned chemistry professor, a South African visionary who went for broke, an ambitious Chinese ex-pat, a quixotic Japanese nuclear engineer, and a string of

From Susan H. Kamei and Barry Denenberg, the award-winning author of *Ali: An American Champion*, comes an engaging new novel that narrates the oral history of Japanese incarceration during World War II, from the perspective of the young people affected. It's difficult to believe it happened here, in the Land of the Free: After the bombing of Pearl Harbor in 1941, the United States government imprisoned more than one hundred and twenty thousand Japanese Americans living on the Pacific Coast in desolate concentration camps until the end of World War II just because of their race. In this book, the voices of those who lived through this experience are wrapped around the story of their incarceration and illuminate the frightening reality of this dark period in American history. Many of them were children and young adults at the time. Now, more than

The impeccably researched, deeply moving, never-before-told tale about a World War II incarceration camp in Wyoming and its extraordinary high school football team—for fans of *The Boys in the Boat* and *The Storm on Our Shores*. In the spring of 1942, the United States government forced 120,000 Japanese Americans from their homes in California, Oregon, Washington, and Arizona and sent them to incarceration camps across the West. Nearly 14,000 of them landed on the outskirts of Cody, Wyoming, at the base of Heart Mountain. Behind barbed wire fences, they faced racism, cruelty, and frozen winters. Trying to recreate comforts from home, many established Buddhist temples and sumo wrestling pits. Kabuki performances drew hundreds of spectators—yet there was little

hope. That is, until the fall of 1943, when the camp ' s high school football team, the Eagles, started its first season and finished it undefeated, crushing the competition from nearby, predominantly white high schools. Amid all this excitement, American politics continued to disrupt their lives as the federal government drafted men from the camps for the front lines—including some of the Eagles. As the team ' s second season kicked off, the young men faced a choice to either join the Army or resist the draft. Teammates were divided, and some were jailed for their decisions. The Eagles of Heart Mountain honors the resilience of extraordinary heroes and the power of sports in a sweeping and inspirational portrait of one of the darkest moments in American history.
