Camouflage is one way animals adapt to survive. Some insects, instead of blending in with their environment, look like something else that will deter animals from eating them. Many

Survival in the Wild - K5 Learning

A behavioral adaptation is something an organism does, a behavior it performs to help it survive. A common animal adaptation is migration, when animals travel to a different place so it can find food and survive. Migration usually takes place in the winter. Sounds animals make for different reasons are behavioral adaptations.
