A well written text that explores american working sail in the smaller alongshore models. These are the sizes most likely to be built by small boatyards and amateurs. What surprised me was the variety in both model and rig after 1800. If you want to know what has been found to work in various conditions, I don't know how you can beat this one.

The New England dory, the seine boat, the Connecticut drag boat, and the yawl were such production-built boats. In general, flat-bottomed rowing and sailing craft were the most widely used of the North American boat types. The flat-bottomed hull appeared in two basic forms: the scow, or punt, and the "flatiron," or sharp-bowed skiff.

~~The Project Gutenberg eBook of The Migrations Of An ...~~

In fact, flat-bottomed, blunt-ended sailing craft were popular working boats in 19th century America, and they
