While a pricing organization user can only create or modify a manual pricing rule, an enterprise user can assign a manual pricing rule to customers.

When a pricing rule is applied to an order, the promotion and the PromotionGroup value of MANUAL are added to the order. Generally, a promotion applies to all current and future lines in an order.

~~Create an order total manual pricing rule based on the items~~

After a manual pricing rule is created, an enterprise user can assign the manual pricing rule to customers of the corresponding enterprise. When a manual pricing rule is assigned to a customer, this manual pricing rule will be used to adjust the prices applied to quotes pertaining to that customer.

~~Assign a manual pricing rule to customers~~

The manual pricing rule summary screen allows the administrators to select a list of item that can be associated with the manual pricing rule. For example, you can create a pricing rule for an order that contains any or all of the items with item ID or list of item IDs.

The canPurchase was unexpectedly running under the guest user which produced incorrect outcomes when applying 'usable by user groups'. It is strongly recommended that a manual audit of monthly user upgrades is done to verify the upgrade was applied, and if not apply a manual upgrade with the expected start/end date.
