The Remington Arms Company began production of 1858 New Army single-action revolvers, and 5 years later the revolver had gained a foothold. In the years following the Civil War, the black powder firearms maker also manufactured a carbine version of the 1859 New Army, called the 1858 Target Carbine, in smaller numbers. Product Manuals | Uberti

Though many percussion revolvers were on the market before during and after the Civil War no firearm offered such a challenge to the dominant Colt revolvers as did the 1858 Remington. Produced in both.36 caliber (Navy) and in the more popular.44 caliber the 1858 Revolver was considered by many to be every bit the gun a Colt was and then some.

In 1836, Samuel Colt changed the face of warfare with the production of the first of a series of iconic and influential single-action revolvers, including the .44-calibre Colt Walker and the seminal .45-calibre Colt Single Action Army, which remains in production today. These weapons shifted the role of the pistol from single-shot weapon of last resort to a practical and powerful sidearm that gave the user the ability to defend himself once his primary armament was discharged. It transformed cavalry tactics and relegated the sword to a largely ceremonial role in many armies. Featuring full-colour artwork, expert analysis and gripping first-hand accounts, this is the absorbing story of Colt's family of single-action revolvers, covering their origins, development, use and lasting impact on the modern world.
