The Bergen K marine diesel and gas engines are a range of marine internal combustion engines manufactured by Rolls-Royce plc.

Bergen Marine - Wikipedia

The Rolls Royce Bergen K engine was developed from the L range, and was first manufactured in the 1960s. Production has now ceased, and the K series has been replaced by the C series. They have a rigid crankcase, a design which results in two advantages: first a reduction in deformations, and second a good main bearing alignment.
