Big History - Wikipedia

History aims to alter our understanding of the universe with Big History, i.e., the look at our world spun into a web that has been stretched for over 13.7 billion years of history. Therefore, Big History discards the traditional timeline that has been stretched for a few thousands of years into the past. To alter the understanding of viewers, History uses what they call eight thresholds, moments that have irreversibly changed our world. These thresholds, which are clearly articulated in ...

Big History: The Big Bang, Life on Earth, and the Rise of ...

Big History is an origin story like many others. But, instead of being rooted in a specific culture or geography, Big History aims to account for everything we know and that which we have yet to discover. Contributors include philosophers, scientists, scholars, adventurers, and curious learners of all stripes who weave a story of enormous scale.

Big History Project: The Universe

Big History students demonstrate clear gains in reading, writing, and content knowledge. "Students learn to think in a rounded, interdisciplinary way that values fact-checking, scholarship, and review." – BHP Teacher.

Big History - OER Project

Big History answers that question by weaving a single story from a variety of scholarly disciplines. Like traditional creation stories told by the world's great religions and mythologies, Big History provides a map of our place in space and time. But it does so using the insights and knowledge of modern science, as synthesized by a renowned historian.

Learn Big History with The Great Courses

From the Big Bang to our still expanding universe, this course, created and maintained by the Big History Project, will lead you on a journey of astounding connections and exciting discoveries. Big History attempts to answer them by examining the entire past of the Universe using the best available ideas from disciplines such as astronomy, chemistry, biology, and history. Throughout the course, you ' ll explore different scales of time and space and view human history from new angles.

What Is Big History? | Khan Academy

Big History is a photographic mosaic of everything. We typically study physics, geology, anthropology, history, and economics separately; however, Dr. David Christian takes a giant step back so we can see the larger details.

Big History: The Big Bang, Life On Earth, And The Rise Of ...

Big History is a project created by David Christian and Bill Gates to find patterns in t he larger perspective of the history of our particular universe. It begins at the Big Bang and continues up until the present day. Q: What are the disciplines that operate in Big History?

Big History: Putting All of History in Context

This is an excellent book focused on the major forces and trends from the Big Bang to modern times. Big history is less concerned with names and dates and more on the large factors that result in change. The book places more emphasis on the periods from the Big Bang to about the Renaissance than it does with history of the last several hundred years.

Big History: Examines Our Past, Explains Our Present ...

Big History Project From Wikipedia, the free encyclopedia The Big History Project was co-founded by Bill Gates and David Christian to enable the global teaching of the subject of Big History, which is described as "the attempt to understand, in a unified way, the history of Cosmos, Earth, Life and Humanity."
