The Advantage The Advantage is a concise, helpful book which focuses on helping organizations to function effectively. The thesis of the book is that the single greatest advantage that any company can achieve is organizational health (Pg 1).

The Advantage - Goodreads | Meet your next favorite book

Business Adventures is well written, as John Brooks is able to tell these stories entertainingly by emphasising funny dialogues, and his generally great way with words. Brooks takes a human interest angle and describes the character of key people not just the facts, and thus adds a richness to each adventure.

Business Adventures by John Brooks

In "The Advantage", Patrick Lencioni presents 4 disciplines which can be used by business leaders to improve organizational health and build a strong foundation for success. In this book summary of "The Advantage", we'll define organizational health and the 4 disciplines to build it.

Read Book Book Business Advantage Intermediate

Beyond Great will give readers everywhere the strategies they need to navigate a daunting new era of technological, economic, and social change. Supported by years of research and hands-on consulting practice, it will present a comprehensive framework for building a high performing, adaptive, and socially responsible global company. The book begins by taking an incisive look at the disruptive forces transforming globalization, including economic nationalism; the boom in data flows and digital commerce; the rise of China; heightened public concerns about capitalism and the environment; and the emergence of borderless communities of digitally connected consumers. The authors then offer nine core strategies that will help businesses today address and exploit these forces. Through compelling stories from real companies that have used these strategies to make change, Beyond Great argues that leaders today must evince a new kind of flexibility and light-footedness, constantly layering in new strategies and operational norms atop existing ones to allow for "always-on" transformation. Leaders must master a whole new set of rules about what it takes to be "global," becoming shapeshifters adept at handling contradiction, multiplicity, and nuance. This book will show them how.
