Botany For Dummies gives you a thorough, easy-to-follow overview of the fundamentals of botany, helping you to improve your grades, supplement your learning, or review before a test.

Botany For Dummies: Amazon.co.uk: Kratz, Rene ...

Botany is the study of plants. Plants are very similar to people in a lot of ways, but they also have some differences that can be hard to wrap your brain around. And, like any science class, botany can get a little overwhelming at times. So here are a few items to help you grasp some of the big ideas in botany.

In common with other 'dummies' books I have read this is not for dummies. I am only part way into the book but the information comes thick and fast, saturated with long technical words and going into far too much detail. It's as if the writer expects you to come out the other end as a fully fledged botanist. I am sure I will learn a lot in the end but at the moment I am struggling. On the up ...
