The time for new approaches to White's work is overdue. Central to the present study are Edward Said's ideas about the role of the intellectual (and the writer) – of speaking “truth to power,” and also the importance of tracing the “affiliations”

of a text and its embeddedness in the world. This approach is not incompatible with Jung's theory of the 'great' artist and his capacity to answer the deep-seated psychic needs of his people. White's work has contributed in many different ways to the writing of the nation. The spiritual needs of a young nation such as Australia must also comprehend its continual urge towards self-definition. Explored here is one important aspect of that challenge: white Australia's dealings with the indigenous people of the land, tracing the significance of the Aboriginal presence in three texts selected from the oeuvre of Patrick White: *Voss* (1957), *Riders in the Chariot* (1961), and *A Fringe of Leaves* (1976). Each of these texts interrogates European culture's denigration of the non-European Other as embedded in the discourse of orientalism. One central merit

of White's commanding perspective is the constant close attention he pays to European hubris and to the paramount autonomy of indigenous culture. There is evidence even of a project which can be articulated as a search for the possibility of white indigeneity, the potential for the white settler's belonging within the land as does the indigene.

for lack of evidence. To make matters worse, Alex is asking Janet to get back together, and the one man she wishes would ask her out sees her as nothing more than a coworker. Janet's love life soon becomes the least of her worries, as she begins to suspect that Alex's rekindled interest in her is driven by ulterior motives. She is determined to get to the bottom of things, but she can't do it alone. Together, Janet and Dennis team up to solve a tangled white collar crime web that leads to powerful politicians and corporate executives. Armed with their keen instincts and skills, Janet and Dennis are bound to succeed. There is just one glitch: both are attracted to each other, and both refuse to admit it. Will Janet and Dennis solve the biggest case of their careers or will their attraction to each other get in the way? *Catching the Bad

The present dictionary is a practical exercise in word-compilation to facilitate the study of Sanskrit language. Based on Webster's complete English dictionary it includes general terms of all sciences and such technical terms as could be duly represented by Sanskrit equivalents actually existing in that language. Besides the general vocabulary quotations from the works of famous authors have been inserted to render the connotation of a word easily intelligible. It is also designed to help scholars translate any passage from English into Sanskrit. It covers a very large field-Epics such as the Ramayana and Mahabharata, Puranas and Upapuranas,
