Understanding  
Organizational Behaviour  
Nptel

search for meaning in our personal and professional lives.

Organizations do not have goals – only people do. Furthermore, people within the same organizations have different goals. This book takes this as its starting point, recognizing that organizations are a dynamic coalition of individuals and groups competing and co-operating as they each pursue their various objectives. Power is a fundamental part of organizational behaviour but many previous studies failed to recognize its centrality. This book remedies this.

Understanding and right brain activity and creativity, to name a few. There are numerous helpful features such as learning outcomes, chapter summaries, review questions, a glossary, and a comprehensive bibliography. Illustrations of practice and relevant theory and research also take the reader through individual, group, and organizational perspectives. This is an essential textbook for undergraduates and postgraduates studying psychology and organizational behaviour. What is more, it can be profitably used on degree, diploma, professional, and short courses. It's also likely to be of interest to the reflective practitioner in work organizations.

presentations, and Chinese translations of key vocabulary and chapter summaries.

For creating a balance in the organizational environment, harmony amongst the employees and the employer is a prerequisite. The factors that help in determining an organizational balance are the sociology of an environment, psychology of the people working there, channels of communication along with a sound and rational management. The book highlights the fundamental concepts of organizational behaviour, and its applications in the Indian organizational scenario. The second edition of the book, maintaining the same chapters'

This book presents the current state of knowledge concerning developments in organisational behaviour and human capital management in the new millennium. It features an in-depth study among managerial staff in the manufacturing sector in Malaysia to reflect employee perceptions of organisational justice, organisational citizenship behaviour, job satisfaction and manager-employee exchanges. Specifically, it seeks to establish the relationships between these

constructs to better manage human capital. With globalisation and the increased career mobility of young talents, organisational citizenship behaviour is of paramount importance in order to retain these workers. The study's greatest contribution is its identification of key indicators that influence organisational citizenship behaviour. Knowing which type of organisational justice is salient for each construct allows the management to proactively improve conditions at the workplace. In essence, this book is intended to draw attention to those aspects of managing human capital that ought to receive the most attention, but are often overlooked in practice. In light of
