Wilderness Quotes - BrainyQuote

The wilderness is a womb in which mercy can grow, if you let it. And when it grows, you can offer it to those who are overcome with shame and regret. In the wilderness, you're given the opportunity to be sustained by the God who will go all the way with you, no matter how hungry you get. No matter how weak, how frail, or how lost.

How to Know When You're in the Wilderness with God

I seek comfort in the wilderness when I sit in the pre-dawn darkness with my Bible, journal, and pen open on my lap. "Your word is a lamp for my feet and a light on my path." Psalm 119:105 (ESV) A lamp, commentaries tell us is as a candle, lighting one step at a time — the Light on our path, the radiance of God.

Comfort In the Wilderness: Living With Chronic Pain

It is characteristic of God in Scripture to lead chosen people into the isolation and barrenness of the wilderness or desert. 1 In general, the idea of nomadic life as morally pure and urban life as corrupt is thematic. 2 This makes for an uneasy contrast with the post-industrial trend towards urbanization, efficiency, and relative comfort. It's important to know, then, what it is about the wilderness that God favors, so that we don't run the risk of distancing ourselves from God today.

For when the heathen world is very frequently in the prophets called 'the wilderness,' and God promiseth that he would do glorious things to that wilderness, that he would produce there pools of waters, that he would bring in there all manner of fruitfulness, and that he would turn the horrid desert into the pleasure of a paradise (all which were to be performed in a spiritual sense by the gospel); it excellently suited even in the letter with these promises, that the gospel should take its ...

A classic theology and a contemporary school of preaching come together in this new work. Glenn Monson, an active Lutheran preacher, has taken the substantial concerns of Law and Gospel theologians and combined them with the insights of the New Homiletic School to come up with a guide to sermon development that helps any preacher deliver Law and Gospel sermons in a contemporary way. The author leads the reader through a step-by-step process in thinking about Law and Gospel preaching from exegesis through sermon design to manuscript writing. Multiple examples from assigned lectionary texts are included, and several sermons are analyzed in detail. This book will be an invaluable friend of any lectionary preacher for whom Sunday is always coming and who longs to preach classic Law and Gospel sermons in a new and fresh way.

Based on the author's previous guides to a 10-touchstone method of grief therapy, this book takes an inspirational approach to the material, presenting the idea of wilderness as a sustained metaphor for grief—and likening the death of a loved one to the experience of being wrenched from normal life and dropped down in the middle of nowhere. Feeling lost and afraid in this uncharted territory, people are initially overwhelmed, the book explains, but they begin to make their way through the new landscape by searching for trail markers—or touchstones—until they emerge as intrepid travelers climbing up out of despair. The touchstones for each step are described in short chapters such as "Embrace the Uniqueness of Your Loss," "Recognize You Are Not Crazy," and "Appreciate Your Transformation."

"If you've been looking for something different to level up your health, fitness, and personal growth, this is it."—Melissa Urban, Whole30 CEO and New York Times bestselling author Discover the evolutionary mind and body benefits of living at the edges of your comfort zone and reconnecting with the wild. In many ways, we're more comfortable than ever before. But could our sheltered, temperature-controlled, overfed, underchallenged lives actually be the leading cause of many our most urgent physical and mental health issues? In this gripping investigation, award-winning journalist Michael Easter seeks out off-the-grid visionaries, disruptive genius researchers, and mind-body conditioning trailblazers who are unlocking the life-enhancing secrets of a counterintuitive solution: discomfort. Easter's journey to understand our evolutionary need to be challenged takes him to meet the NBA's top exercise scientist, who uses an ancient Japanese practice to build championship athletes; to the mystical country of Bhutan, where an Oxford economist and Buddhist leader are showing the world what death can teach us about happiness; to the outdoor lab of a young neuroscientist who's found that nature tests our physical and mental endurance in ways that expand creativity while taming burnout and anxiety; to the remote Alaskan backcountry on a demanding thirty-three-day hunting expedition to experience the rewilding secrets of one of the last rugged places on Earth; and more. Along the way, Easter uncovers a blueprint for leveraging the power of discomfort that will dramatically improve our health and happiness, and perhaps even help us understand what it means to be human. The Comfort Crisis is a bold call to break out of your comfort zone and explore the wild within yourself.

In an effort to make sense of the deaths in quick succession of several loved ones, Kathleen Dean Moore turned to the comfort of the wild, making a series of solitary excursions into ancient forests, wild rivers, remote deserts, and windswept islands to learn what the environment could teach her in her time of pain. This book is the record of her experiences. It's a stunning collection of carefully observed accounts of her life—tracking otters on the beach, cooking breakfast in the desert, canoeing in a snow squall, wading among migrating salmon in the dark—but it is also a profound meditation on the healing power of nature.
