Copyright Jcpds International Centre For Diffraction Data

The International Centre for Diffraction Data (ICDD) maintains a database of powder diffraction patterns, the Powder Diffraction File (PDF), including the d-spacings (related to angle of diffraction) and relative intensities of observable diffraction peaks. Patterns may be experimentally determined, or computed based on crystal structure and Bragg's law.

CiteSeerX - Document Details (Isaac
Councill, Lee Giles, Pradeep Teregowda):

Underkarating of jewelry is a silent crime that often goes unnoticed, yet it can be effectively detected through XRF screening. It has become increasingly common in the last 15 years for XRF to be used in a preemptory fashion by jewelry manufacturers for process control and by industry oversight organizations for ...
