Ensure you're referencing the most accurate information surrounding nursing practice in today's neonatal intensive care unit with AWHONN's Core Curriculum for Maternal-Newborn Nursing, 6th Edition. Developed by one of the most authoritative associations in neonatal intensive nursing care, AWHONN, this renowned guide provides in-depth coverage of the most common neonatal disorders and their management — focusing on the latest evidence-based practice for preterm infants, medications, and antepartum-intrapartum complications. Additionally, the concise outline format makes information easy to find as it highlights the essentials of each condition including the definition, etiology, pathophysiology, signs and symptoms, diagnostic tests, treatments, and outcomes. With timely content that sets the standard for neonatal nursing practice, this trusted reference is an excellent resource for practicing nurses working in any NICU worldwide. Content developed by AWHONN, one of the most authoritative associations in neonatal intensive care nursing, ensures the information is both accurate and relevant. Concise outline format provides access to important nursing considerations associated with the management of the most common conditions in the neonate. Full-scope coverage of neonatal nursing practice provides information on families, ethics, legal issues, research, case management, the transition to home, and more. Focus on evidence-based practice related to preterm infants, medications, and antepartum-intrapartum complications sets the standard for neonatal nursing practice. Strategies to promote inclusionary care better reflect today's nursing care today with a focus on family-centered care, comprehensive perinatal records, health care teams in the NICU, and infant care best practices. NEW! Expanded information on breastfeeding and acquired opioid dependency keep you informed with the latest best practices related to these two everchanging areas. NEW! Updated neonatal resuscitation guidelines ensures you follow the most up-to-date protocols and procedures in this critical skill area. NEW! Additional tables and boxes help you quickly find important information.

Perfect as a resource in the field or for exam preparation, this authoritative reference from the Association of Women's Health, Obstetric, and Neonatal Nurses (AWHONN) includes in-depth coverage of the most common neonatal disorders and their management. The concise outline format highlights the essentials of each condition including definition, etiology, pathophysiology, signs and symptoms, diagnostic tests, treatments, and outcomes to help you find important information quickly. This new edition also features an increased focus on evidence-based practice, new CAMTS and AAMS guidelines, new techniques for PICC placement, and changes to the Neonatal Resuscitation Program. All necessary information to prepare for the neonatal intensive care nursing certification examination is included. Concise outline format provides access to important nursing considerations associated with the management of the most common conditions in the neonate. Text provides a collaborative effort between the three most authoritative associations in neonatal intensive care nursing - AWHONN, AACN, and NANN. Information on families, ethics, legal issues, research, case management, and the transition to home acknowledge the full scope of neonatal nursing practice. NEW! CAMTS and AAMS guidelines, techniques for PICC placement, and changes to the Neonatal Resuscitation Program are just a few of the updates that reveal the importance the new edition places on safety practices and procedures. NEW! Updated chapter on Patient Safety includes selected improvement strategies and resources for neonatal nurses to build a patient safety toolkit, discusses TeamSTEPPS (Team Strategies and Tools to Enhance Performance and Patient Safety), and recognizes human issues, such as shift work and fatigue. NEW! Increased focus on evidence-based practice for preterm infants, medications, and antepartum-intrapartum complications sets the standard for neonatal nursing practice. NEW! Strategies to promote inclusionary care better reflect nursing care today by focusing on family-centered care,

comprehensive perinatal records, health care teams in the NICU, and best practices in the care of the late preterm infant. NEW! Comprehensively revised chapter on Immunology identifies risk factors for infection associated with term and preterm infants, distinguishes clinical symptoms and therapies associated with TORCHES CLAP spectrum infections, and includes prevention strategies for hospital-acquired infections. NEW! Thoroughly updated content and references reflect currency and technologic advances. NEW! Refocused chapter on Developmental Care guides the nurse to use assessment within the context of the environment and situation to initiate interventions in the moment or use patterns of responses for developing plans of care and presents core measures on evaluating developmental care practices in the NICU.

Get ready for your neonatal intensive care nursing certification exam with the only review developed in collaboration with three leading nursing organizations! From AACN, AWHONN, and NANN, Certification and Core Review for Neonatal Intensive Care Nursing, 5th Edition prepares you for your examination with hundreds of high-quality study questions and realistic test simulation. Based on the latest test plans of the AACN's CCRN®-Neonatal exam and the NCC's Neonatal Intensive Care Nursing (RNC-NIC) exam, review questions cover the changes to the Core Curriculum and reflect the latest evidence, essential knowledge, and best practices. New to this edition are three new chapters and 225 completely new review questions. This powerful study tool offers unparalleled preparation for your certification exam! Endorsed by the three most authoritative associations in neonatal intensive care nursing: the American Association of Critical-Care Nurses (AACN); the Association of Women's Health, Obstetric, and Neonatal Nurses (AWHONN); and the National Association of Neonatal Nurses (NANN). Realistic exam practice is offered through 675 total questions that mirror the certification exam content, the multiple-choice question format, and the distribution of content. Answers are provided for each question, accompanied by rationales and references, to enhance your understanding of the material. Online flexibility allows you to organize review questions and test format by your preferred examination, either the AACN or NCC. Online exam simulation — included free with each new copy of the book — mirrors the test-taking experience with an interactive, timed format. Customized study lets you choose whether to work through online questions in Study Mode or Examination Mode. Online remediation includes rationales for both correct and incorrect answers, and in-book remediation provides rationales for correct answers. A compact, portable size makes the book easier to study anytime, anywhere. 225 NEW review questions include 75 in the book and 150 additional online questions on the Evolve companion website. Thoroughly UPDATED review content reflects AACN's latest CCRN®-Neonatal exam and the NCC's latest Neonatal Intensive Care Nursing (RNC-NIC) exam, information in Core Curriculum for Neonatal Intensive Care Nursing, 5th Edition, and the newest evidence-based guidelines for neonatal critical care. NEW! Three new chapters include Grieving Process, Quality Improvement, and Facilitation of Learning. NEW focus on culturally sensitive care is included in an expanded Family Integration and Culturally Sensitive Care chapter. UPDATED rationales in the Answer Key are referenced to the most recent literature and evidence-based guidelines. Compatibility with iPads, iPhones, and other mobile devices allows online exam practice that is easy and convenient.

Perfect as a resource in the field or for exam preparation, this authoritative reference from the Association of Women's Health, Obstetric, and Neonatal Nurses (AWHONN) includes in-depth coverage of the most common neonatal disorders and their management. The concise outline format highlights the essentials of each condition including definition, etiology, pathophysiology, signs and symptoms, diagnostic tests, treatments, and outcomes to help you find important information quickly. Coverage of key content on the neonatal intensive care nursing certification exam prepares you for test success. Information on families, ethics, legal issues, research, case management, and the transition to home emphasizes the importance of total care of the neonatal patient and family. New and updated content on late preterm infants, neurologic disorders, and ventilatory strategies provide the latest information from the field for more effective patient outcomes.

Co-authored by an interprofessional collaborative team of physicians and nurses, Merenstein & Gardner's Handbook of Neonatal Intensive Care, 9th Edition is the leading resource for interprofessional, collaborative care of critically ill newborns. It offers comprehensive coverage with a unique interprofessional collaborative approach and a real-world perspective that make it a practical guide for both nurses and physicians. The new ninth edition features a wealth of expanded content on delivery-room care; new evidence-based care "bundles"; palliative care in the NICU; interprofessional collaborative care of parents with depression, grief, and complicated grief; and new pain assessment tools. Updated high-quality references have also been reintegrated into the book, making it easier for clinicians to locate research evidence and standards of care with minimal effort. These additions, along with updates throughout, ensure that clinicians are equipped with the very latest clinical care guidelines and practice recommendations — all in a practical quick-reference format for easy retrieval and review. UNIQUE! Core author team of two physicians and two nurses gives this internationally recognized reference a true interprofessional collaborative approach that is unmatched by any other resource. Consistent organization within clinical chapters include Physiology/Pathophysiology, Etiology, Prevention, Data Collection (History, Signs and Symptoms, and Laboratory Data), Treatment/Intervention, Complications, and Parent Teaching sections. UNIQUE! Color-highlighted point-of-care clinical content makes high-priority clinical content quick and easy to find. UNIQUE! Parent Teaching boxes outline the relevant information to be shared with a patient's caregivers. Critical Findings boxes outline symptoms and diagnostic findings that require immediate attention to help the provider prioritize assessment data and steps in initial care. Case studies demonstrate how to apply essential content to realistic clinical scenarios for application-based learning. NEW! Updated content throughout reflects the latest evidence-based practice, national and international guidelines, and current protocols for interprofessional collaborative practice in the NICU. NEW! Up-to-date, high-quality references are now reintegrated into the text for quick retrieval, making it easier for clinicians to locate research evidence and standards of care with minimal effort. NEW! Expanded content on delivery-room care includes the impact of staffing on quality of care, delayed cord clamping, resuscitation, and more. NEW! Coverage of the new evidence-based care "bundles" keeps clinicians up to date on new guidelines that have demonstrated improved outcomes of very preterm infants. NEW! Coverage of new pain assessment tools equips NICU providers with essential resources for maintaining patient comfort. NEW! Expanded coverage of palliative care in the NICU provides the tools needed to ensure patient comfort. NEW! Expanded coverage of interprofessional collaborative care of parents with depression, grief, and complicated grief prepares clinicians for this essential area of practice.

Perfect as a resource in the field or for exam preparation, this authoritative reference from the Association of Women's Health, Obstetric, and Neonatal Nurses (AWHONN) includes in-depth coverage of the most common neonatal disorders and their management. The concise outline format highlights the essentials of each condition including definition, etiology, pathophysiology, signs and symptoms, diagnostic tests, treatments, and outcomes to help you find important information quickly. Coverage of key content on the neonatal intensive care nursing certification exam prepares you for test success. Information on families, ethics, legal issues, research, case management, and the transition to home emphasizes the importance of total care of the neonatal patient and family. New and updated content on late preterm infants, neurologic disorders, and ventilatory strategies provide the latest information from the

field for more effective patient outcomes.

An official publication of the Association of Women's Health, Obstetric and Neonatal Nurses (AWHONN), *Perinatal Nursing, Fourth Edition* presents up-to-date information based on the most rigorous evidence and offers suggestions for best practices. This new edition of the authoritative, comprehensive text used by perinatal nurses worldwide features a wealth of new content to keep practice current. New chapters related to patient safety and the development of a highly reliable perinatal unit, inform nurses how to conduct team training and drills for obstetric emergencies, create checklists, and effectively handoff patients. It features expanded coverage of high-risk pregnancy, from bleeding in pregnancy to preterm labor and birth, diabetes, cardiac disease, pulmonary complications, multiple gestation, and maternal-fetal transport. An all-new chapter on obesity in pregnancy covers risks to the mother and fetus, care from preconception to postpartum, as well as bariatric surgery. An expanded chapter on newborn nutrition includes new sections on the infant feeding decision, benefits of breastfeeding, nutritional components, and preterm milk and lactation.

This second edition provides the core knowledge required to skillfully carry out all daily clinical responsibilities. Current, updated coverage examines human reproduction, genetics, high-risk pregnancies, labor and delivery risk, and much more.

The only exam review for the two leading neonatal critical-care nursing certification examinations, *Certification and Core Review for Neonatal Intensive Care Nursing, 4th Edition* prepares you for your exam with realistic questions and test simulation. Based on the blueprints of the AACN's CCRN-Neonatal exam and the NCC's Neonatal Intensive Care Nursing (RNC-NIC) exam, review questions cover the information in *Core Curriculum for Neonatal Intensive Care Nursing, 3rd Edition*, and reflect essential knowledge, the latest evidence, and best practices. A total of 600 questions and answers with rationales are provided. Developed by the AACN, AWHONN, and NANN, this powerful review tool offers excellent preparation for your certification exam! This title includes additional digital media when purchased in print format. For this digital book edition, media content is not included. Endorsed by the three most authoritative associations in neonatal intensive care nursing: the American Association of Critical-Care Nurses (AACN); the Association of Women's Health, Obstetric, and Neonatal Nurses (AWHONN); and the National Association of Neonatal Nurses (NANN). Answers are provided for each question, accompanied by rationales and references, to enhance your understanding of the material. Realistic exam practice is offered through questions that mirror the certification exam content, the multiple-choice question format, and the distribution of content. Updated questions reflect the information in *Core Curriculum for Neonatal Intensive Care Nursing, 4th Edition*, and the latest test plans by both AACN and NCC. Complete remediation includes rationales for both correct and incorrect answers. A compact, portable size makes the book easier to study anytime, anywhere.
