"This course offers current and prospective teachers of English a comprehensive treatment of pronunciation pedagogy, drawing on both current theory and practice. The text provides: - an overview of teaching issues from the perspective of different methodologies and second language acquisition research - innovative teaching techniques - a thorough grounding in the sound system of North American English - insight into how this sound system intersects with spelling, morphology, listening, and discourse - diagnostic tools and assessment measures - suggestions for syllabus design. Discussion questions and exercises encourage teachers to draw on their personal language learning/teaching experience as they assimilate the contents of each chapter. A training cassette offers practice in assessing learners' pronunciation"---Publishers's website.

Adaptable, humourous, easy to put together and fun. Many ESL pupils have found these skits fun, become more confident speaking English and enjoyed the learning process. The skits cover common vocabulary themes and grammar and allow for speaking opportunities in life-like meaningful contexts. Ideal for small groups, one to one with private tutors or use with your own children. Every skit is adaptable to any number of children. Scripts are written for ESL beginners with examples of alternatives provided to show how easy it is to adapt them and make them more complex for intermediate levels. The age bracket suggested is from 6 to 12. Some skits are possible with ages 4 and 5 though it takes much longer to prepare. Here is what other teachers have reported on using the plays and skits in this book: The kids asked to do it again: I did that play (Ready Steady go!) with my children's class yesterday evening and it worked really well. They absolutely loved it and I wished I'd taken my camera as, by the end of the lesson, they were all sitting in their pretend car with a fine array of ski hats, sunglasses, umbrellas, over-sized gloves, etc. They looked like film stars! Anyway, they've asked to do it again next week so a sure sign that they enjoyed themselves. Miranda Goodwin, France Since discovering your materials I enjoy the planning...and love the teaching. You use the fun approach I believe in through the theatre work I have done, and you have given me the confidence to know it can be applied to language learning for this age group. The kids love it and so do the parents! Joanna Simm, France The children in my beginners English class had such fun doing your skit 'Ready Steady Go!' They were begging me for a skit. 'The Robot' was perfect and so simple to do. It really helped the kids build confidence in their ability to speak English. Thanks for making us look good! Becky Good, Battambang, Cambodia Whenever you have any more ideas be sure to let me know. The stories are fantastic, the games are great and the plays are wonderful!!!!!!!!!!!!!! Thanks so much for making my classes work so well. Lisa Brownlow in Spain I just wanted to let you know that the plays were a great success and I intend to keep having fun with them. Each of my classes put the play on for the school and the parents! Thank you for your great ideas. Michele Hain, Germany Just wanted to let you know how I went with my 1st play girls will be girls and boys will be boys!!!! It was great and the kids loved it. I really got them to ham it up when they said "Hey girls."They laughed and laughed they managed the vocab great and I knew it would work as I had taught them the vocab previously. It's amazing to see the confidence it builds in them. At the end of one lesson I had one little girl come up to me and say "Miss Cathy, I am a dancer?" and she showed me some wonderful dance moves. Cathleen Molloy, China

New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

"Living in an age of communication, literacy is an extremely integral part of our society. We are impacted by literature during our infancy, childhood, adolescence, and adulthood. This work includes information from specialists in the field who discuss the influence of popular culture, media, and technology on literacy. Together, they offer a comprehensive outline of the study and practice of literacy in the United States. The first volume, Early Literacy, covers infancy and early childhood. Topics such as oral language development, phonics, beginning writing, storytelling and drama, and instruction for second language learners and special needs children are all addressed. Volume two, Childhood Literacy, includes information on popular approaches to reading instruction, children's literature, spelling, computer and instructional technology, book clubs, and after-school programs. Adolescent Literacy, the third volume, covers supplementary literacy programs for at-risk adolescents, literacy tutors, young adult literature, gender issues, digital literacy, and blogging. Finally, volume four, Adult Literacy, offers chapters on adult basic education, programs for English language learners, and workplace literacy."---publisher's description.

This four volume set provides authoritative voices commenting on the most important areas of literacy across the lifespan.

The Fourth Edition of this popular text expands on the third by taking an in-depth look at teaching strategies appropriate for educators working in all health related professions. Chapters present a broad range of strategies, as well as the learning environment to best use the strategies, detailed practical and theoretical information about the strategies, how to deal with problems that could occur, specific examples of the strategies as they have been used, and resources available for further information. Focusing on innovation, creativity, and evaluation, the strategies are developed for use in traditional classroom settings, technology-based settings, and clinical settings.
