For more than twenty years, Charles Templeton was a major figure in the church in Canada and the United States. During the 1950s, he and Billy Graham were the two most successful exponents of mass evangelism in North America. Templeton spoke nightly to stadium crowds of up to thirty thousand people. However, increasing doubts about the validity of the Old Testament and the teachings of the Christian church finally brought about a crisis in his faith and in 1957 he resigned from the ministry. In Farewell to God, Templeton speaks out about his reasons for the abandonment of his faith. In straightforward language, Templeton deals with such subjects as the Creation fable, racial prejudice in the Bible, the identity of Jesus of Nazareth, Jesus ' alienation from his family, the second-class status of women in the church, the mystery of evil, the illusion that prayer works, why there is suffering and death, and the loss of faith in God. He concludes with a positive personal statement: " I Believe. "

Farewell to the God of Plague reassesses the celebrated Maoist health care model through the lens of Mao ' s famous campaign against snail fever. Using newly available archives, Miriam Gross documents how economic, political, and cultural realities led to grassroots resistance. Nonetheless, the campaign triumphed, but not because of its touted mass-prevention campaign. Instead, success came from its unacknowledged treatment arm, carried out jointly by banished urban doctors and rural educated youth. More broadly, the author reconsiders the relationship between science and political control during the ostensibly antiscientific Maoist era, discovering the important role of " grassroots science " in regime legitimation and Party control in rural areas.

Ludovic Kennedy explores the question of whether we are any longer justified in interpreting what we call God as an autonomous, independent, sentient being, or whether the time has come to recognize him as we do all history's gods - as images created by the human mind to meet human needs.

"In The Other Greek, Arthur Cooper offers a captivating and unorthodox introduction to the world of the Chinese script through the medium of poetry, explaining the structure, meaning and cultural significance of each character. Written nearly half a century ago, and now published posthumously, the book argues that the role of Chinese writing was analogous to the influence of Greek civilization on Western culture. Chinese is the Greek of the Far East, 'the other Greek'! Originally a cryptanalyst, Cooper uses his professional--and distinctly non-academic--training to analyse Chinese characters and points out a series of unacknowledged associations between them. Ultimately, he aims to initiate the reader with no prior knowledge of the language into Chinese writing and poetry"--

Introduction --The Age-old balance between host and parasite --Determinants of history, agents of human tragedy --The different paths to progress --Why worry in the Age of Miracles? --A worrisome future is not inevitable --1.How the world starts getting better --Death, disease, and the fall of prehistoric man --The path to better health in wealthier nations --A better world begins as a more unequal one --2. --Diseases of conquest and colony --The colonial and military roots of global health --The path to better health in poorer nations --Death and demography --The legacy of ebola --The difference that health aid makes --3.Diseases of childhood --A child survival revolution --China's other great leap forward --Is healthier wealthier? --The (potential) dividends of demography --Sunny in Nairobi, with a chance of storms --Cell phones, not factories --The perils of youth --4. --Diseases of settlement --Cholera and the white death --A simple solution --Poor world cities --The perils of growing naturally --Climate and the environment --The Tunis effect --Returning to Dhaka --5.Diseases of place --The growth industry in Agadez, Niger --People, not just potatoes --Migration as the history of disease --The world is getting better in worrisome ways --6. --The exoneration of William H. Stewart --Confronting the complex of multiple causation --The role of aid in adapting to the decline of infectious diseases --The myth of the good epidemic.

Featuring a previously published author introduction, a personal foreword by his son and a new introduction by his grandson, a definitive edition of the lauded World War I classic collects all 39 of the Nobel Prize-winning author's alternate endings to offer new insights into his creative process. Reprint.

In this study D. A. Carson illuminates Jesus's message to his disciples after the Last Supper, in which Jesus proclaims the coming of the Holy Spirit and prays for himself, his followers, and the world. D. A. Carson clearly explains what Jesus taught his disciples the night before his crucifixion. This exposition of John 14-17 helps students of the Bible appreciate Jesus's teaching on the coming and the work of the Holy Spirit, his high priestly prayer, and his commandment to love one another.
