Fractions, Decimals & Percentages

Three way differentiated coding challenging to crack the World War II code. Children use the fraction coded alphabet to work out the message but they must first solve the addition or subtraction sum to do this. However, the sums have been encrypted using decimals or percentages (or both) to increase the challenge. Please let me know how this goes!

Fractions, Decimals and Percentages Coding Challenge ...

Using the picture of the fraction wall, can you find equivalent fractions? Matching Fractions, Decimals and Percentages Age 7 to 14 The aim of this game is to match pairs of cards.

Matching Fractions, Decimals and Percentages

What is this worksheet useful for? This KS2 Ultimate Equivalent Fractions, Decimals and Percentages Challenge Worksheet gives children practice matching and finding the missing decimal numbers, percentages and fractions. Use it to help reinforce the teaching of equivalent fractions, decimals and percentages in your classroom.

KS2 Equivalent Fractions, Decimals and Percentages Worksheet

Included are a number of challenging problems and puzzles, open-ended investigations, cross-curricular activities, and resources to practise and consolidate students' mathematical understanding of fractions, decimals and percentages from colouring halves to the introduction of ratios.

Fractions, Decimals and Percentages | STEM

A collection of short problems on fractions, decimals and percentages. A collection of short problems on fractions, decimals and percentages. Skip over navigation. NRICH. Main menu ... Age 14 to 16 Short Challenge Level: What percentage of his 10,000 men did the Grand Old Duke of York have left when he arrived back at the bottom of the hill?

Fractions, Decimals and Percentages - Short Problems

To convert a percentage to a decimal, divide it by 100 and remove the % sign. 2 of 4 Percentage means 'out of 100'. You can write 73 out of 100 as the fraction $\frac{73}{100}$.

Converting fractions, decimals and percentages

Since you know that all percentages relate to a fraction that has a denominator of 100, to turn it into a decimal, you simply divide the numerator by the denominator which is always 100. So since...

Write percentages as fractions and decimals - Year 6 - P7 ...

You need to estimate where on a decimal number line to position the claw grabber to match a percentage figure. It is a good way of testing whether you understand the relationship between decimals and percentages.

Fractions and Decimals Maths Games

To convert a fraction to a percentage divide the top number by the bottom number, then multiply the result by 100% Example: Convert $\frac{3}{8}$ to a percentage First divide 3 by 8: $3 \div 8 = 0.375$

Decimals, Fractions and Percentages - MATH

This is a simple, differentiated resource for pupils to learn direct equivalence between fractions and decimals; reinforcing number facts through a simple puzzle grid, which is ideal for an OMS or fun plenary activity. Full instructions on the resource.

Fraction Decimal Puzzle Grids | Teaching Resources

Then, the required fraction is $x / (x + 5)$ -----(1) Given : If 3 be added to both, the fraction becomes $\frac{3}{4}$. $(x + 3) / (x + 5 + 3) = 3 / 4$. Simplify and solve for x. $(x + 3) / (x + 8) = 3 / 4$. $4(x + 3) = 3(x + 8)$ $4x + 12 = 3x + 24$. $x = 12$. To get the required fraction, substitute 12 for x in (1). (1)----> $x / (x + 5) = 12 / (12 + 5)$

Fractions Decimals and Percentages Word Problems

Challenge level: There are 14 NRICH Mathematical resources connected to Equivalent fractions, decimals and percentages, you may find related items under Fractions, Decimals, Percentages, Ratio and Proportion. Broad Topics > Fractions, Decimals, Percentages, Ratio and Proportion > Equivalent fractions, decimals and percentages

Fractions, Decimals, Percentages, Ratio and Proportion ...

This is an engaging KS4 activity to teach Fractions, Decimals and Percentages. I've used this at KS4 as a revision of the topics in preparation for a module exam. Could be used at KS3 also with a fairly competent class.

Murder Mystery - Fractions, Decimals & Percentages ...

Equivalent fractions, decimals and percentages There are three questions to complete. The first two questions allow you to practise the skill, while the third question is a problem-solving activity...

Equivalent fractions, decimals and percentages ...

A set of bronze, silver and gold questions on the topic of fractions, decimals and percentages, aimed at KS3. Before you start watch the Rounding 'Kick Off' Video from Rio. Then use the challenge cards in class or at home to help students of different abilities access the learning objective.

FREE! -   Champions Challenge Card: Fractions, Decimals ...

The activities with their mathematical content are: *Percentage cards - arranging digits to make correct calculations *Fraction squares - dividing squares in to different fractions *Dividing squares - fractions that add up to 1 *Fractions of shapes - similar shapes *Limits - decimal numbers *Mixing paint - introduction to ratios.
