An in-depth look at the latest innovations in mortgage-backed securities The largest sector of the fixed-income market is the mortgage market. Understanding this market is critical for portfolio managers, as well as issuers who must be familiar with how these securities are structured. Mortgage-Backed Securities is a timely guide to the investment characteristics, creation, and analysis of residential real estate-backed securities. Each chapter contains cutting-edge information for investors, traders, and other professionals involved in this market, including discussions of structuring mortgage products-such as agency CMOs and new types of mortgages-and an in-depth explanation of the concept of option-adjusted spreads and other analytical concepts used to assess relative value.

Volume II: Investment Management and Financial Management focuses on the theories, decisions, and implementations aspects associated with both financial management and investment management. It discusses issues that dominate the financial management arena—capital structure, dividend policies, capital budgeting, and working capital—and highlights the essential elements of today's investment management environment, which include allocating funds across major asset classes and effectively dealing with equity and fixed income portfolios. Incorporating timely research and in-depth analysis, the Handbook of Finance is a comprehensive 3-Volume Set that covers both established and cutting-edge theories and developments in finance and investing. Other volumes in the set: Handbook of Finance Volume I:
