"ASA's Oral Exam Guide Series is an excellent study tool for students and instructors alike. Arranged in a question-and-answer format, this comprehensive guide lists the questions most likely to be asked by examiners and provides succinct, ready responses. Use when you're gearing up for the Practical Exam, as well as for a general refresher. FAA references are provided throughout for further study. This tenth edition of the Commercial Pilot Oral Exam Guide by Michael D. Hayes has been updated throughout and includes new information on ADS-B, BasicMed, aircraft leasing, and weather. Thorough explanations of pilot responsibilities, technical subject areas and the required maneuvers-including steep spirals and power-off accuracy approach/landings-are covered in this simulated oral test format. Other topics include Aeronautical Decision Making and Cockpit Resource Management (ADM and CRM), dealing with situational awareness and the use of checklists. This guide also includes a chapter dedicated to scenario-based questions, by contributing author Arlynn McMahan. Student responses to these "open-ended" questions demonstrate an understanding of the big picture and convey the practical application of what's important and why. The Commercial Pilot Oral Exam Guide is the comprehensive guide to prepare you for the FAA checkride"--

A treasury of thirty-seven years of flying and teaching experience in the world's most popular executive aircraft. Tom Clements' articles, stories, and operating tips all compiled into one reference book. This information will be invaluable for current or future pilots of King Air airplanes.

A Flight Information Manual for the Cessna 172, for use when learning to fly on the C172 or during type rating training, and a great reference manual for pilots who fly the aircraft. Compiled from engineering manuals, manufacturers handbooks, and the author's extensive flight experience. Provides straight forward, useful explanations of the aircraft, systems and flight operations including performance planning, with photographs, diagrams and schematics.

From 1945 to 1973, more than 100,000 members of the U.S. military were advisors in Vietnam. Of these, 66,399 were combat advisors. Eleven were awarded the Medal of Honor, 378 were killed and 1393 were wounded. Combat advisors lived and fought with South Vietnamese combat units, advising on tactics and weapons and liaising with local U.S. military support. Bob Worthington's first tour (1966-1967) began with training at the Army Special Warfare School in unconventional warfare, Vietnamese culture and customs, advisor responsibilities and Vietnamese language. Once in-country, he acted as senior advisor to infantry defense forces and then an infantry mobile rapid reaction force. Worthington worked alongside ARVN forces, staging operations against Vietcong and North Vietnamese Army units, and coordinated actions with the U.S. Marines. He describes a night helicopter assault by a 320-man ARVN battalion against a 1,200-man NVA regiment. On another night, the Vietcong ceased fire while Worthington arranged a Marine helicopter to medevac a wounded baby.
