The difference between team and group dynamics. Although team dynamics are very similar to group dynamics, and the terms are often used interchangeably, there is an essential difference.

Groups are a social community, consisting of two or more people who have something in common. A team is a special instance of a group in which the commonality is a shared goal.

# Online Library Group Dynamics And Team Building

The difference between team and group dynamics Dynamics is part of group behaviour. In industrial organisations, there are several groups, for example, group of workers, group of supervisors, group of managers, group of senior executives and trade unions. These are all action oriented teams. The group as well as group behaviour is closely connected with the management.
