Hal Fischer's "Gay Semiotics: A Photographic Study of Visual Coding Among Homosexual Men" (1977) is one of the most important publications associated with California conceptual photography in the 1970s. This new edition reproduces the look and feel of the original volume, which reconfigured into a book format the 24 text-embedded images of Fischer's 1977 photographic series "Gay Semiotics." The photographs in "Gay Semiotics" present the codes of sexual orientation and identification Fischer saw in San Francisco's Castro and Haight Ashbury districts, ranging from such sexual signifiers as handkerchiefs

and keys to depictions of the gay fashion "types" of that era--from "basic gay" to "hippie" and "jock." "Gay Semiotics" also features Fischer's critical essay, which is marked by the same wry, anthropological tone found in the image/text configurations. Fischer's book circulated widely, finding a worldwide audience in both the gay and conceptual art communities.

Fischer's insistence on the visual equivalence of word and image is a hallmark of the loose photography and language group that included Fischer, Lutz Bacher, Lew Thomas and others working in the San Francisco Bay Area. First published as an artist's book in 1978 by NFS Press, at a time when gay people had been forced to both evaluate and defend their lifestyles,

"Gay Semiotics" earned substantial critical and public recognition. Thirty-seven years later, the book remains a proactive statement from a voice within the gay community from a moment in history just before the devastation wrought by AIDS. Hal Fischer (born 1950) grew up in Highland Park, Illinois. He arrived in San Francisco in 1975 to pursue an MA in photography at San Francisco State. Through his work as an art reviewer and photographer, he soon became embedded in the Bay Area's artistic and intellectual scene. He continues to live and work in San Francisco.

At once humorous, conceptually brilliant and visually enthralling, this is the first monograph to feature the

complete set of photo-text works that Fischer produced between 1977 and 1979 in San Francisco's Haight and Castro neighborhoods.

In the early 1970s, Lew Thomas set out to disrupt photography in San Francisco. Tired of the mystical thinking and emotionalism that had underscored Bay Area photography since the 1940s, Thomas pursued a photographic practice grounded in ideas gleaned from conceptual art and Structuralist philosophy. A cohort

Among other photographers, including Donna-Lee Phillips and Hal Fischer, embraced Thomas' mission, joining him in what became known as the 'Photography and Language' movement, named after a book and group exhibition of the same title produced by Thomas in 1976. Thomas, Phillips and Fischer were all extremely active in the mid to late 1970s. In addition to making their own artwork, they published essays, reviewed shows and organized exhibitions. Under the name NFS Press, Thomas published a number of books designed by Phillips, including 'Structural(ism) and Photography' (1978), which featured Thomas' work; 'Eros and Photography' (1977), which was edited by Phillips, and two books of Fischer's work: 'Gay

Semiotics (1978) and '18th Near Castro Street x 24' (1979). This volume assesses their work, their relationship to one another and their place in the history of photography in the 1970s.

Examining increasingly fluid notions of masculinity over the past six decades, this book offers a culturally diverse collection of work from some of the world's most celebrated photographers. This photographic exploration draws together the work of approximately fifty artists of different ethnicities, generations, and gender identities to look at how ideas of masculinity

Among Men have evolved since the 1960s. Each of its six themed chapters features bold and arresting work by artists such as Richard Avedon, John Coplans, Robert Mapplethorpe, Herb Ritts, Collier Schorr, Larry Sultan, Wolfgang Tillmans, and David Wojnarowicz, who are all renowned for their depictions of masculinity and its tropes. Others, including Rotimi Fani-Kayode, Masahisa Fukase, Adi Nes, Hank Willis Thomas, and Akram Zaatari, offer ethnically and culturally diverse perspectives. A number of female artists--Laurie Anderson, Annette Messenger, Tracey Moffatt, and Marianne Wex--explore the uncomfortable and invasive nature of the male gaze and younger artists such as Sam Contis, Andrew Moisey, Paul Mpagi

Among Men Sepuya, and Elle Pérez, offer a 21st-century perspective of maleness through the lens of identity and global politics. Each chapter in the book opens with an essay by a key thinker in the fields of art, history, culture, and queer studies. Spanning decades and continents, this exploration shows how increasingly difficult it is to define masculinity.

Surveying the American artist's multimedia works on paper from 1964 to the present American artist Louise Fishman's (born 1939) physical and process-driven work reimagines the Abstract Expressionist model into a vehicle for dialogue about history and emotion centered in the artist's identities as Jewish, feminist

and lesbian. Though she is primarily a painter, Fishman has worked with a number of different mediums to create works on paper since the early 1960s. *A Question of Emphasis* presents a vast selection of these works in a single volume, encompassing collage, oil and wax, thread, acrylic text, ink, charcoal, printmaking, oil stick, watercolor and tempera. Fishman conceives of her works on paper not as studies for later paintings but as discrete pieces of art, generally small- and medium-scale and frequently sculptural and tactile. New writing as well as an interview between Fishman and artist Ulrike Müller accompany a wide selection of works.

Innovative and conceptual uses of photography within a highly developed Soviet dissident culture are explored in this examination of photography's place in late Soviet unofficial art. Simultaneous.

Arthur Asa Berger's unique ability to translate difficult theories into accessible language makes this book an ideal introduction to cultural criticism. Berger covers the key theorists, concepts, and subject areas, from literary, sociological and psychoanalytical theories to semiotics and Marxism. readers a sense of the important thinkers' styles and helping place them in their context. Berger also provides a comprehensive bibliography on cultural criticism for those who wish to explore the topics at greater length.
