Read How to Lie with Statistics. Whether you encounter statistics at work, at school, or in advertising, you'll remember its simple lessons. Don't be terrorized by numbers, Huff implores. "The fact is that, despite its mathematical base, statistics is as much an art as it is a science." --Therese Littleton

~~Amazon.com: How to Lie with Statistics (9780393310726 ...~~

How to Lie with Statistics is a book written by Darrell Huff in 1954 presenting an introduction to statistics for the general reader. Not a statistician, Huff was a journalist who wrote many "how to" articles as a freelancer.

~~How to Lie with Statistics—Wikipedia~~

Lies, Damn Lies, and Statistics: The Pirates of the Powerpoint  
Darrell Huff uses a simple, but effective literary device to impress his readers about how much statistics affect their daily lives and their understanding of the world. He does this by pretending that the book is a sort of primer in ways to use statistics to deceive, like a manual for swindlers, or better, for pirates.

~~How to Lie with Statistics by Darrell Huff~~

Crafted by a non-statistician, in a contrived language and illustrated using humorous drawings, How To Lie with Statistics is relevant in the twenty-first century as when it was first published in 1954. This

book is still a bestseller, although some of its examples are outdated, such as the price of bananas and the earnings of Yale graduates.

## ~~How To Lie With Statistics – Recommendations From ...~~

A little book I love is a short read written by Darrell Huff in 1954 titled “How to Lie With Statistics”. After reading it, you may never view a chart, graph, or headline involving statistics the same way again. Most of us are already aware that statistics are commonly framed in a way to fit a narrative.
