What's the best method to use to tune a manual ATU? Let's find out...NOTE: If you are tuning using RF from a radio remember to release the PTT before you rotate...

Best Manual ATU Tuning Method. - YouTube

Manual PID tuning is done by setting the reset time to its maximum value and the rate to zero and increasing the gain until the loop oscillates at a constant amplitude. (When the response to an error correction occurs quickly a larger gain can be used. If response is slow a relatively small gain is desirable).

PID tuning - How to tune a PID controller manually?

Now you need to enter the channel numbers or frequencies into your manual tuning settings on your TV. If it's a channel number it will be 3, 6, 7 or 8 numbers depending on your transmitter ranging between 21-60. If it is an frequency usually this would be given in Mhz but sometimes some TV's only accept this in KHz.
