Mathematics guide 5 Mathematics across the IB continuum The IB continuum of international education provides a progression of learning for students aged 3 – 19. In the IB Primary Years Programme (PYP), mathematics is viewed primarily as a vehicle to support inquiry, providing a universal language through which we make sense of the world around us.

Mathematics guide - IB Documents

Our study guides are the result of many years of revision course teaching, discovering the best way to deliver information to students preparing to take their exams. The guides are regularly updated with input from experienced IB teachers and subject specific experts. We therefore think that our study guides are the best available.

Study Guides – IB.Academy

1.5 Complex numbers. A complex number is defined as $z = a + bi$. Where $a, b \in \mathbb{R}$, a is the real part (\Re) and b is the imaginary part (\Im). $i^2 = -1$ $z = a + bi$ is the Cartesian form. $z = r(\cos\theta + i\sin\theta)$ is the polar form where r is the modulus and θ is the argument also sometimes stated as $z = r \operatorname{cis}\theta$.

Review Notes for IB Standard Level Math

The IB Mathematics curriculum change is significant. The 4 current subjects (Studies, SL, HL & Further) are being replaced by two “ routes ” that can be taken at either a Standard Level (SL) or Higher Level (HL). The two routes are “ Analysis & Approaches (AA) ” and “ Applications & Interpretations (AI) ” . This creates 4 brand new subjects: AA SL, AA HL, AI SL, AI HL.

New IB Math Curriculum Information 2021 | Revision Village

Mathematics is a linear subject, and it is expected that most students embarking on a Diploma Programme (DP) mathematics course will have studied mathematics for at least 10 years. There will be a great variety of topics studied, and differing approaches to teaching and learning.

Mathematics HL guide

Students can only study one course in mathematics. All DP mathematics courses serve to accommodate the range of needs, interests and abilities of students, and to fulfill the requirements of various university and career aspirations. The aims of these courses are to enable students to: develop mathematical knowledge, concepts and principles

Maths in the DP - International Baccalaureate®

teachers are the primary audience, although it is expected that teachers will use the guide to inform students and parents about the subject.
