Aidan Nichols' timely book is the first full-scale investigation of Joseph Ratzinger's theology, from the 1950s to the present day. It presents a chronological account of the development of Ratzinger's writing that reflects a wide range of historical and theoretical interests. A comprehensive introduction to a figure who is in his own right, quite apart from his significance in the politics of the Church, a major German Catholic theologian of the twentieth century. This new edition amplifies existing chapters by reference to books by Ratzinger between 1986/1987 and his election as Pope in 2005, and includes two new chapters - Judaism, Islam and other religions, and the secularization and future of Europe.

This volume was written by a group of eminent Catholics, including Joseph Cardinal Ratzinger - now Pope Benedict XVI. In these erudite essays the authors contend that historical-critical interpretation of Scripture has long since run its course in both Protestant and Catholic exegesis. Instead, they argue, the future of interpretation lies in accepting that the Bible is not just a collection of historical documents but also a record of revelation conceived in faith. By this token, true exegesis involves the faith and humility of the exegete.
