The last thing Natalia Kristoff expected was that her friend's wild dream to find her a fake husband for a Green Card would have any sort of success. Yet here she is, sitting in a private booth, listening to the sexiest man she's ever seen lay out the details of just what he needs from her. IN return, he's going to sign the papers that stand between her and her dream job. She can't believe what she's hearing. Stand at his side, pretend she's madly in love with him, all to satisfy some crazy family tradition? That's a deal she can live with. Kirell Ursa has a problem. A big one. His bear shifter family is in shambles, struck from within by traitors. With no one in charge of security, the head of his House has nominated him for the job. The only problem? Tradition dictates that anyone in power must have a mate. If he's going to pull off this scheme, he must find a mate in the next 72hrs. Someone. Anyone. All they have to do is pretend to love him for a few days. Things get off to a rocky start between the two when their first date is interrupted by Kirell's enemies. As he slowly exposes Natalia to the truth, she's forced to come to grips with the existence of another world, one she never thought existed. Shifters of all sorts collide as Kirell's enemies work to expose his fraud, but the

harder they try, the more Natalia finds she wants to be by his side. Can a relationship built on a handshake business agreement turn into something real, even in the face of a threat to Natalia's very life?

To acquire content knowledge through reading, students must understand the complex components and diverse purposes of informational texts, as emphasized in the Common Core State Standards (CCSS). This practical book illuminates the ways in which a text's purpose, structure, details, connective language, and construction of themes combine to create meaning. Classroom-tested instructional recommendations and "kid-friendly" explanations guide teachers in helping students to identify and understand the role of these elements in different types of informational texts. Numerous student work samples, excerpts from exemplary books and articles, and a Study Guide with discussion questions and activities for professional learning add to the book's utility. ̈

project that achieves target production rates and meets target equipment-related unit costs and profits. The book includes a matrix for the selection of equipment and identifies common pitfalls of project equipment selection and how to avoid them. It describes how to develop an OSHA job safety analysis for an equipment-intensive project, making this sometimes onerous but always essential task easier. The authors' diverse and broad experience makes this a book that ranges from the rigorous mathematical analysis of equipment operations to the pragmatic discussion of the equipment maintenance programs needed to guarantee that the production predicted in a cost estimate occurs.

Following the Pulitzer prize-winning collection *Stag's Leap*, Sharon Olds gives us a stunning book of odes. Opening with the powerful and tender "Ode to the Hymen," Olds addresses and embodies, in this age-old poetic form, many aspects of love and gender and sexual politics in a collection that is centered on the body and its structures and pleasures. The poems extend parts of her narrative as a daughter, mother, wife, lover, friend, and poet of conscience that will be familiar from earlier collections, each episode and memory burnished by the wisdom and grace and humor of looking back. In such poems as "Ode to My Sister," "Ode of Broken Loyalty," "Ode to My Whiteness," "Blow Job Ode," and "Ode to the Last Thirty-Eight Trees in New York City Visible from This Window," Olds treats us to an intimate examination that, like all her work, is universal, by turns searing and charming in its honesty. From the bodily joys

and sorrows of childhood to the deaths of those dearest to us, Olds shapes the world in language that is startlingly fresh, profound in its conclusions, and life-giving for the reader.
