When Maria Vazquez returns to Nicaragua for her beloved grandfather's funeral, she brings with her a mysterious package from her grandmother's past-and a secret of her own. And she also carries the burden of her tense relationship with her mother Ninexin, once a storied revolutionary, now a tireless government employee. Between Maria and Ninexin lies a chasm created by the death of Maria's father, who was killed during the revolution when Maria was an infant, leaving her to be raised by her grandmother Isabela as Ninexin worked to build the new Nicaragua. As Ninexin tries to reach her daughter, and Maria wrestles with her expectations for her romance with an older man, Isabela, the mourning widow, is lost in memories of attending boarding school in 1950's New Orleans, where she loved and lost almost sixty years ago. When the three women come together to bid farewell to the man who anchored their family, they are forced to confront their complicated, passionate relationships with each other and with their country-and to reveal the secrets that each of them have worked to conceal. Lushly evocative of Nicaragua, its tumultuous history, and vibrant present, Eleni N. Gage's The Ladies of Managua brings you into the lives of three strong and magnetic women, as they uncover the ramifications of the choices they made in their pasts and begin to understand the ways in which love can shape their futures.

Histories of revolutions often focus on military, political, or economic upheavals but sometimes neglect to connect these larger events to the daily lives of "ordinary" people. Yet the peoples' perception that "things are worse than before" can topple revolutionary governments, as shown by the recent defeat of the Sandinista regime in Nicaragua and the governments of Eastern Europe. Providing the kind of prosaic, revealing details that more formal histories have excluded, My Car in Managua offers an objective, often humorous description of the great difficulties and occasional pleasures of life in Nicaragua during the Sandinista revolution. During a year's work (1985-1986) at the Instituto Centroamericano de Administraci3n de Empresas (INCAE), Forrest Colburn purchased a dilapidated car—and with it an introduction to everyday life in Nicaragua. His discoveries of the length of time required to register the car (approximately six weeks), the impossibility of finding spare parts (except when U.S. dollars were applied to the search), and the fact that "anyone getting into a car in Managua can be charged a small fee [for car watching] by anyone else" all suggest the difficulties most Nicaraguans faced living in a devastated economy. Drawing on experiences from visits throughout the revolutionary period (1979-1989), Colburn also sheds light on how the Revolution affected social customs and language, gender roles and family relationships, equality and authority, the availability of goods and services, the status of ethnic minorities, and governmental and other institutions. Illustrations by Nicaragua's celebrated political cartoonist R3ger S3nchez Flores enliven the lucid text.

The history of the United States from the Revolutionary War to Reconstruction, designed for Michigan 8th Graders.

A concise political history of Nicaragua from pre-Columbian times through the Sandinista Revolution (1979) to the present day, Nicaragua also provides detailed consideration of Nicaraguan culture, society, economy, government, and international relations. The fourth edition remains one of the most comprehensive and readable studies of Nicaragua available in English.
