To apply you'll need to: Make note of the Queen Mary institution code: Q50. Make note of your chosen course UCAS code: Medical Genetics. C431 - BSc (Hons) CCX2 - BSc (Hons) Biological Sciences with Foundation. C43Y - BSc (Hons) with Year Abroad. Click on the link below: Apply on UCAS.

~~Medical Genetics - Queen Mary University of London~~

Medical genetics is the branch of medicine that involves the diagnosis and management of hereditary disorders. Medical genetics differs from human genetics in that human genetics is a field of scientific research that may or may not apply to medicine, while medical genetics refers to the application of genetics to medical care. For example, research on the causes and inheritance of genetic ...

~~Medical genetics - Wikipedia~~

The Medical Genetics Section's purpose is to facilitate cross-specialty education, integration and progress in the field of genetic medicine and to provide insight into and promote recent advances in genetic medicine as a cross-cutting discipline.

~~Medical Genetics Section | The Royal Society of Medicine~~

Application to Medicine: Genetic engineering has been gaining importance over the last few years and it will become more important in the current century as genetic diseases become more prevalent and agricultural area is reduced. Genetic engineering plays significant role in the production of medicines.

~~Top 4 Applications of Genetic Engineering~~

On this three-year BSc in Medical Genetics you will study a broad range of relevant topics, including proteins, gene expression, molecular cell biology, metabolism and molecular medicine and biomedical ethics. Your degree in Medical Genetics will give you an education and training in genetics with particular emphasis on its application to medicine.
