DANGEROUSLY GOOD. DISTINCTIVELY DEEVER. Forensic detective Lincoln Rhyme is back with his most harrowing case yet in this newest installment of Jeffrey Deaver's New York Times bestselling series. A businessman snatched from an Upper East Side street in broad daylight. A miniature hangman's noose left at the scene. A nine-year-old girl, the only witness to the crime. With a crime scene this puzzling, forensic expertise of the highest order is absolutely essential. Lincoln Rhyme and Amelia Sachs are called in to investigate. Soon the case takes a stranger turn: a recording surfaces of the victim being slowly hanged, his desperate gasps the backdrop to an eerie piece of music. The video is marked as the work of The Composer... Despite their best efforts, the suspect gets away. So when a similar kidnapping occurs on a dusty road outside Naples, Italy, Rhyme and Sachs don't hesitate to rejoin the hunt. But the search is now a complex case of international cooperation--and not all those involved may be who they seem. Sachs and Rhyme find themselves playing a dangerous game, with lives all across the globe hanging in the balance.

With the launch of the new California 1400 in 2013, and actor Ewan McGregor appointed brand ambassador, Moto Guzzi's owners Piaggio are proving their belief in the future and importance of Moto Guzzi. Moto Guzzi - The Complete Story charts the development of the stylish Guzzi bikes and the highs (and lows) of one of the oldest motorcycle marques still in existence. Topics covered include the origins of the Moto Guzzi factory at Madello del Lario - the oldest motorcycle factory in the world; the success at the Isle of man TT and races worldwide; the development of the V-twin engine; the De Tomaso years and the introduction of the iconic Le Mans model. The complete story of Moto Guzzi, from 1921 to the present day covers some very special motorcycles and some astonishing people who made it happen. Will be of great interest as a reference book to all motorbike enthusiasts and is superbly illustrated with 250 colour photographs.

Za bílého dne byl na newyorské ulici unesen obchodní cestující. Tak událost popsala devítiletá dívka, jediná sv?dkyn? události. Na míst? ?inu pachatel zanechal symbolický vzkaz: miniaturní oprátku. S nejvyšší pravd?podobností tím cht?l nazna?it, jaké jsou jeho další úmysly... Takto znepokojivý popis místa ?inu je pro v?hlasného kriminalistu Lincolna Rhyma neodolatelným lákadlem. Spole?n? s Amélií Sachsovou se neprodlen? pouští do ohledávání d?kaz? a vyhodnocování vodítek. Než však sta?í u?init jakékoli konkrétní záv?ry, dojde k ne?ekanému zvratu. Z italské Neapole je hlášen naprosto identický p?ípad... Jak ob?tí p?ibývá, vyvstává na povrch další bizarní lib?stka vyšinutého

Práv? proto po?izuje nahrávky posledních dech? a sten? svých ob?tí, a ty pak následn? zhudeb?uje a zve?ej?uje na internetu. Ano, Rhyma se Sachsovou i tentokrát ?eká výjime?ný p?ípad. Er komponiert den Todeswalzer – zum Klang deiner letzten Atemzüge. Die packende Bestseller-Reihe jetzt als TV-Serie bei SAT1! Am helllichten Tag wird auf einer Straße in der New Yorker Upper East Side ein Mann überwältigt und entführt. Als einzige Spur bleibt am Tatort ein Galgenstrick in Miniaturgröße zurück. Kurz darauf sorgt ein Video im Internet für Aufsehen: Man sieht live dabei zu, wie dem aufgehängten Opfer langsam die Luft abgeschnürt wird. Seine verzweifelten Atemzüge bilden den Hintergrund zu einem düsteren Musikstück. Als in Neapel eine ähnliche Entführung stattfindet, reisen der Forensikexperte Lincoln Rhyme und seine Partnerin Amelia Sachs nach Italien und nehmen die Verfolgung auf. Denn solange der Täter nicht gefasst ist, wird die Musik des Grauens nicht verklingen ...

extraordinary breakthroughs and inventions, and outlines their remarkable achievements. These scientists overcame significant obstacles, often simply because they were women. Their science and their lives were driven by personal tragedies and shaped by seismic world events. What drove these remarkable women to cure previously incurable diseases, disprove existing theories or discover new sources of energy? Some were rewarded with the Nobel Prize for their pioneering achievements -Madame Curie, twice - others were not and, even if they had been, many are still not the household names they should be. Despite living during periods when the contribution of women was disregarded, if not ignored, these resilient women persevered with their research, whether creating life-saving drugs or expanding our knowledge of the cosmos. By daring to ask 'How?' and 'Why?' and persevering against all odds, each of these women, in a variety of ways, has helped to make the world a better place. The scientists are: Henrietta Leavitt (United States, Astronomy); Lise Meitner (Austria, Physics); Chien-Shiung Wu (United States, Physics); Marie Curie (France, Chemistry); Dorothy Crowfoot Hodgkin (United Kingdom, Chemistry); Virginia Apgar (United States, Medicine); Gertrude Elion (United States, Medicine); Rita Levi-Montalcini (Italy, Biology); Elsie Widdowson (United Kingdom, Biology); Rachel Carson (United States, Biology).
