Building number relationships and number sense can be a struggle. According to the common core standards, students in the 1st grade should be able to count to 120. By 2nd grade students are expected to understand multi-digit numbers up to 1,000. For struggling

Access Free Number Sense

students, there is a huge number sense gap that needs to be filled.

Students who never

Access Free Number Sense

Develop strong
number sense will
struggle with nearly all
mathematical strands,
from measurement
and geometry to data
and equations. In
Number Sense

Routines, Jessica
shows that number
sense can be taught
to all students.

Dozens of classroom
examples -- including

Access Free Number Sense

Conversations among students engaging in number sense routines -- illustrate how the routines work, how children's number sense develops, and how to implement responsive routines.
