~~Multifunction devices combine the essentials of a fax machine, printer, scanner, and copier into one peripheral for small and home offices. As the market for this equipment grows, the need for skilled repair and maintenance increases. Unfortunately the service documentation supplied by the manufacturers is completely inadequate making the repair jobs even harder and more expensive. Marvin Hobbs teaches you how multifunction peripherals work in theory and in practice with lots of hands-on examples and important troubleshooting and repair tips you don't want to miss. This book fills a gap in the literature, and will be a welcome addition to the library of any technician or do-it-yourselfer. Written by a knowledgeable practitioner with inside industry information Fully covers the troubleshooting and repair of multifunction peripherals A must-have instructional and reference title for anyone who works with computer peripherals!~~

~~InfoWorld is targeted to Senior IT professionals. Content is segmented into Channels and Topic Centers. InfoWorld also celebrates people, companies, and projects.~~

~~Hobbs takes readers beyond general maintenance procedures to examine the diagnostics and service techniques used for the maintenance of facsimile machines--including the latest technology of major fax machine components. Annotation copyrighted by Book News, Inc., Portland, OR~~

~~Includes Part 1, Number 1: Books and Pamphlets, Including Serials and Contributions to Periodicals (January - June)~~

This is the definitive practical guide to fault-finding, troubleshooting and servicing satellite television equipment, both indoors and outdoors. It will take you through all areas of satellite television system servicing from the simplest fixed dish to fully motorised systems. From PAL to Mac to MPEG all contemporary systems are covered. Satellite TV systems have been installed in a wide variety of locations, using a bewildering range of equipment. That equipment is beginning to need maintenance and repair. To cope with the volume and variety of work, Nick Beer has written the first guide to satellite TV which concentrates on what to look for and what to do when it goes wrong. This book is up to date and crammed with real-life experience, not theoretical data or manufacturer's ideal specs. Nick Beer has already written the best-selling Servicing Audio and Hi-fi Equipment and is a technical correspondent for many UK and international journals such as Television. He also works as an engineer and teaches satellite servicing to technicians. A practical guide to a new and important area for service engineers Covers indoor and outdoor equipment Written by an experienced author, teacher and engineer
