Permission marketing - Wikipedia

Permission marketing is an approach to selling goods and services in which a prospect explicitly agrees in advance to receive marketing information. Opt-in e-mail, where Internet users sign up in advance for information about certain product categories, is a good example of permission marketing. Advocates of permission marketing argue that it is effective because the prospect is more receptive to a message that has been requested in advance and more cost-

customer base, network, following, community, etc, that has given you permission to market to them.

Permission Marketing: Turning Strangers Into Friends And ...

In his book, Godin explains the principles of using permission marketing both in the offline world and online world, but he doesn't describe in detail how to best achieve permission marketing using web and e-mail. But if you only have a network permission this doesn't give you the opportunity to deliver messages which help build a relationship.
