A strange and charming collection of hilariously absurd poetry, writing, and illustration from one of today's most popular young comedians... EGGHEAD: Or, You Can't Survive on Ideas Alone Bo Burnham was a precocious teenager living in his parents' attic when he started posting material on YouTube. 100 million people viewed those videos, turning Bo into an online sensation with a huge and dedicated following. Bo taped his first of two Comedy Central specials four days after his 18th birthday, making him the youngest to do so in the channel's history. Now Bo is a rising star in the comedy world, revered for his utterly original and intelligent voice. And, he can SIIIIIIIIING! In EGGHEAD, Bo brings his brand of brainy, emotional comedy to the page in the form of off-kilter poems, thoughts, and more. Teaming up with his longtime friend, artist, and illustrator Chance Bone, Bo takes on everything from death to farts in this weird book that will make you think, laugh and think, "why did I just laugh?"

Cats may have intelligence that far exceeds our own... but it doesn't stop them getting completely stuck, often in the most ridiculous places. Cats Getting Stuck documents some of the funniest scrapes felines have got themselves into, from wrestling with hangers to getting wedged into glass jars, or the results of overambitious climbing! But whenever they're caught with their paws in a twist, they style it out as though they WANTED to get tangled up in some window blinds. We can but stand back and laugh (then untangle them).

Book Four in the Verdantian Series - Stand alone. Not a cliff-hanger. HEA 360 pages. M/F, Mild D/s themes, light spanking, and an over-sexed but sensitive prince with a hero complex.Scornfully rejected by her desert lover and uncertain of her place in the world, Adonia travels an arduous road fraught with peril to the fabled mountain-city of Nyth Uchel. She wishes to heal their sick and dying, but in the arms of Hel--their highborn prince--Adonia finds where she wants to belong.Noble born, a descendant of the greatest kings their planet has known, Hel willingly bears the burden of his dying city and its people on his massive shoulders--alone. But forced to watch helplessly as a dark evil attacks the very soil under his feet, he crushes his pride to summon help. He is staggered to discover the answer to saving his city and perhaps all Verdantia might lie behind a heavy fall of chocolate hair and shy brown eyes.As their entire planet faces encroaching black death, Hel and Adonia, two seemingly disparate individuals, forge a partnership of love and sacrifice that alters their future forever.

Move over Mae West--here come this millennium's incomparable tainted ladies, courtesy of artist Anne Taintor. Taintor's sassy, saucy creations pair vintage illustrations with witticisms few can resist, and her well-mannered women enjoy deliciously naughty thoughts.

The author reflects on the friends in her life, as well as the nature and value of female friendship.

Poetry. "The apparent velocity of Reynolds's poetry, the physical charges directed into her materials, and the emphatic but relatively spare diction are always believable. Even, or maybe especially, when filtered through what turn out to be surprisingly flexible thematic terms such as revenge and mirage. That elementary principle of organization in any art that nothing gets in anything else's way, and everything is at its own limit of possibilities, is realized, for me, in the way the poems handle intimate immediacy: through a willful, concise, and thoughtfully layered balance of plea and affect."—Anselm Berrigan "Christie Ann's poems have this brilliant severity about them. Instead of trying to disarm the reader with intimations of easy escape they make false attempts at disentanglement read like a form of existential disavowal, as if the whole world would go flickering out if it had to suffer through another specious evasion. This work refuses that extinguishing completely, delivering against it a charged & complex form of lyric revenge marked by loss, recrimination & resilience."—Dana Ward

In an attempt to find a cure after being diagnosed with Creutzfeldt-Jakob (aka mad cow) disease, Cameron Smith, a disaffected sixteen-year-old boy, sets off on a road trip with a death-obsessed video gaming dwarf he meets in the hospital.

This illustrated gift book of short comics illuminates author Debbie Tung's experience as an introvert in an extrovert's world. Presented in a loose narrative style that can be read front to back or dipped into at one's leisure, the book spans three years of Debbie's life, from the end of college to the present day. In these early years of adulthood, Debbie slowly but finally discovers there is a name for her lifelong need to be alone: she's an introvert. The first half of the book traces Debbie's final year in college: socializing with peers, dating, falling in love (with an extrovert!), moving in, getting married, meeting new people, and simply trying to fit in. The second half looks at her life after graduation: finding a job, learning to live with her new husband, trying to understand social obligations when it comes to the in-laws, and navigating office life. Ultimately, Quiet Girl sends a positive, pro-introvert message: our heroine learns to embrace her introversion and finds ways to thrive in the world while fulfilling her need for quiet.
