The concept of Quick Response Manufacturing (QRM) was first developed in the late 1980s by Rajan Suri, at the time professor of Industrial and Systems Engineering at the University of Wisconsin-Madison. Combining growing academic research in Time-based Competition (TBC) with his own observations from various lead time reduction projects, Suri conceived QRM as a concept espousing a relentless emphasis on lead time reduction that has a long-term impact on every aspect of the company.

Quick response manufacturing - Wikipedia

Quick Response Manufacturing (QRM) is a companywide strategy for lead time reduction throughout the enterprise, and is particularly suited to companies making high-mix, low-volume or custom products. Using QRM, such companies have reduced their lead times
