Enter Quantity Received To System. The employee uses the documents to update the inventory received in the company ' s inventory system. After logging into the company ' s computer system, the employee enters each item received, the exact quantity received and the warehouse location.

Warehouse Receiving Processes | Bizfluent  
A receiving procedure is needed to properly inspect all incoming goods, mark them with tags, and record them as having been received. Inspect Incoming Goods (Receiving Staff) Upon receipt of a delivery, match the received items to the description stated on the accompanying bill of lading, as well as the description on the related purchase order. Major discrepancies can lead to rejection of the delivered goods.
