Each Outline presents all the essential course information in an easy-to-follow, topic-by-topic format. You also get hundreds of examples, solved problems, and practice exercises to test your skills. This Schaum's Outline gives you 897 fully solved problems Concise explanations of all course fundamentals Information on conditional probability and independence, random variables, binominal and normal distributions, sampling distributions, and analysis of variance Fully compatible with your classroom text, Schaum's highlights all the important facts you need to know. Use Schaum ' s to shorten your study time--and get your best test scores! Schaum's Outlines--Problem Solved.

Schaum's Outline of Probability and Statistics has become a vital resource for the more than 977,000 college students who enroll in related probability and statistics courses each year. Its big-picture, calculus-based approach makes it an especially authoritative reference for engineering and science majors. Now thoroughly updated, this second edition includes vital new coverage of order statistics, best critical regions, likelihood ratio tests, and other key topics.

See how to solve probability and statistics problems with this enhanced ebook that features 20 videos of professors working through solutions! Confusing textbooks? Missed lectures? Not enough time? Fortunately for you, there's Schaum's Outlines. More than 40 million students have trusted Schaum's to help them succeed in the classroom and on exams. Each Outline presents all the essential course information in an easy-to-follow, topic-by-topic format. And there are plenty of problems for you to practice on, with more than 760 probability and statistics problems with fully worked solutions so you can check your work, or get help when you need it. Plus, this new enhanced edition features video solutions of professors showing exactly how to solve problems. If you want top grades and a thorough understanding of probability and statistics, this powerful study tool is the best tutor you can have!
