Constructivism Social Theory Of International Politics

Drawing upon philosophy and social theory, Social Theory of
International Politics develops a theory of the international
system as a social construction. Alexander Wendt clarifies the
central claims of the constructivist approach, presenting a
structural and idealist worldview which contrasts with the
individualism and materialism which underpins much
mainstream international relations theory.

Social Theory of International Politics

Social Theory of International Politics expresses a theory that emphasises the role of shared ideas and norms in shaping state behaviour. It is critical of both liberal and realists approaches to the study of international relations which, Wendt argues, emphasize materialist and individualistic motivations for state actions rather than norms and shared values as Wendt argues they should.

Social Theory of International Politics

A new "constructivist" approach to international politics has been gaining ground in recent years, emphasizing the role of shared ideas and norms in shaping state behavior. A leading figure in this movement, Wendt takes aim at realists and liberals who stress materialist or individualist causes of state action.
