"Crafting a Modern World examines a missing chapter in the history of mid-century modernism: the story of husband and wife design team Antonin and Noemi Raymond. This is the first comprehensive book in English on the duo that creatively transformed design from 1917 to 1966."--BOOK JACKET.

"There's evil people around, Dermot love. . . . I knew about them even before me dream. Really evil people. Won't we have to fight them!" This latest tale of Nuala Anne McGrail, the engagingly fey heroine of such irresistible books as *Irish Cream* and *Irish Lace*, begins with a foreboding dream of some terrible impending evil. Dermot Michael Coyne, Nuala's adoring husband and spear-carrier, knows better than to ignore his wife's second sight, but from whence does this nameless peril originate? From the Homeland Security goons determined to deport the Irish-born Nuala on the basis of nothing more than vague suspicions and accusations? From the spiteful neighbors campaigning against their family's beloved Irish wolfhounds? Or from the tangled dealings of the Currans, a prosperous clan of Irish-American

aristocrats, with whom Nuala and Dermot have recently become acquainted? The true danger becomes shockingly apparent when a catastrophic car-bombing rocks the Chicago riverfront. Uncovering the twisted minds behind the bombing is not easy; Dermot and Nuala soon find themselves enmeshed in a complicated tapestry of lies and secrets. Nuala's preternatural instincts also lead her to a forgotten manuscript revealing the treachery and deceit behind a tragic chapter in Irish history: the saga of bold Robert Emmet and the failed uprisings of 1798 and 1803. Between the past and the present, our heroine and her devoted spouse have more than enough mysteries to contend with, but the two of them are bound to make the truth just as clear as . . . Irish Crystal. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

Young wizards Kit Rodriguez and Nita Callahan manage to wangle their way onto an elite team sent to investigate the mysterious, long-sought "message in a bottle" that holds the first clues to the secrets of the ancient Martian race.

Blockchain technology is powering our future. As the technology behind cryptocurrencies like bitcoin and Facebook's Libra, open software platforms like Ethereum, and disruptive companies like Ripple, it's too important to ignore. In this revelatory book, Don Tapscott, the bestselling author of Wikinomics, and his son, blockchain expert Alex Tapscott, bring us a brilliantly researched, highly readable, and essential book about the technology driving the future of the economy. Blockchain is the ingeniously simple, revolutionary protocol that allows transactions to be simultaneously anonymous and secure by maintaining a tamperproof public ledger of value. Though it's best known as the technology that drives bitcoin and other digital currencies, it also has the potential to go far beyond currency, to record virtually everything of value to humankind, from birth and death certificates to insurance claims, land titles, and even votes. Blockchain is also essential to understand if you're an artist who wants to make a living off your art, a consumer who wants to know where that hamburger meat really came from, an immigrant who's tired

of paying big fees to send money home to your loved ones, or an entrepreneur looking for a new platform to build a business. And those examples are barely the tip of the iceberg. As with major paradigm shifts that preceded it, blockchain technology will create winners and losers. This book shines a light on where it can lead us in the next decade and beyond.

It started very small and full of hope. But its daring campaigns have placed Fairtrade goods at the heart of the supermarket shelves. From bananas and coffee beans to cotton and chocolate, Fairtrade has grown

to become an important global movement that has revolutionised the way we shop. As Harriet Lamb, Chief Executive of Fairtrade International, explains in this extensively revised and updated edition of her inspirational book, Fairtrade is about a better deal for workers and famers in the developing world. It's about making sure the food on our plates, and shirts on our backs, don't rob people in other countries of the means to feed or clothe themselves. She explores the journey, through an often unjust system, that Fairtrade items make from farm to consumer. And she uncovers the shocking cost of our demand for cheaper food. There is much still to be done. But by hard work and high ideals, Fairtrade is starting to transform the lives of over 7 million farmers, workers and their families, and is a powerful symbol of how extraordinary change can be achieved against all the odds - by us all.

Over the past few years the e-book has received much attention - the new generation of books can be downloaded from the Internet. Indeed, many publishing applications nowadays enable the production of electronic books. This book shows readers how to design electronic books using the book metaphor. The information presented is a culmination of the author's experience as an author and researcher. It contains valuable information gathered through user surveys, user focus groups, usability testing, and participation in industry groups
