With input from teens, parents, and numerous experts, Teens' Guide to College & Career Planning knows just how to talk to high school students about the important decisions involving life after graduation. This easy-to-read guide, with updated content, enables busy students to hone in on the right information for them. Whether it's mapping the road from high school to college, figuring out financial aid, determining if joining the military is the right move, preparing for an interview, or developing early career skills, Teens' Guide addresses each option available to young adults with meaningful information. Inside you'll find valuable advice from guidance counselors, instructors, college admission officials, military officers, and-most importantly-other high school students! Also includes, expert tips for interviews, resumes, and cover letters. With new content written by Justin Muchnick, current high school junior and author of Peterson's® The Boarding School Survival Guide, this guide will help you get ready for life after high school.

Presents advice on using summer opportunities to help gain entrance into selective universities and provides guidance on researching, choosing, and applying for summer programs.

Teen's Guide to College & Career Planning is intended for use by students at any stage of middle and high school, but it has the most relevance for high school sophomores and juniors who are starting to get serious about the decisions they will need to make after graduation. Whether they're planning to head to a two-year or four-year college, to a technical school, to an apprenticeship, to the military, or directly into the workforce-or are still undecided-here's where they'll find information on the various options available and which ones best suits their skills, needs, and wants.

Because the real world is the best education. High school can be boring. High school curriculum can be frustrating and out of touch. So what is the answer for young people whose creativity, bright ideas, and boundless energy are being stifled in that over-scheduled and grade-driven environment? What would you do if you could go to college without going to high school? Would you travel abroad, spend late nights writing a novel, volunteer in an emergency room, or build your own company? What dreams would you be pursuing right now? College Without High School shows how independent teens can self-design their high school education by becoming unschooled. Students begin by defining their goals and dreams and then pursue them through a combination of meaningful and engaging adventures. It is possible to pursue your dreams, and gain admission to any college of your choice. Boles shows how to fulfill college admission requirements by proving five preparatory results: intellectual passion, leadership, logical reasoning, background knowledge, and the capacity for structured learning. He then offers several suggestions for life-changing, confidence-building adventures that will demonstrate those results. This intriguing approach to following your dreams and doing college prep on your own terms will be welcomed by students (and

their parents).

## Teens Guide To College And Career Planning

"Depression in college students has reached a crisis and the prevalence continues to rise. The increasing psychological distress of the current generation, Gen Z, and their greater willingness to obtaining mental health care have overwhelmed most college counseling services.

Despite this sobering news, parents can play a critically important role and the book describes a plan for supporting and preventing depression in young people. Each chapter concludes with practical suggestions and strategies for parents. There are four sections. The first section is a description of adolescent development and the types of depressive symptoms and disorders that may emerge. The second section details the foundation that students need in order to move toward a successful college experience, including family support, communication and assertiveness skills; the development of self-efficacy and problem-solving skills; the process of self-regulation, and distress tolerance. Barriers to self-regulation and optimal development include underage substance use and unsafe sexual relationships. The third section examines vulnerabilities to depression, including cognitive distortions, perfectionism, and the stress of being a sexual minority or an overweight and thus subject to harassment. Challenges faced by students are seen as "different," are explored. what happens to students who are seen as "different." The final section is a description of life on campus including the stresses of college life and the opportunities to develop friendships, relationships with faculty, and a more meaningful view of the future. There are chapters on how to access mental health services before and during college. The book concludes with a call to reduce stress on students and challenge the competitive individualistic culture"--

In this completely revised edition, young people learn how to get and manage credit, how to make and stick to a budget, how to pay for

college, how to determine needs versus wants, how to pay for a car, how to open a bank account, how to balance a checkbook, how to manage finances online, and how to avoid financial mistakes. You will also learn about investments, taxes, checks, debit cards, credit cards, and budget tips. This book is filled with helpful suggestions from financial counselors, and you will discover ways to jumpstart your financial future and use money responsibly.

Using college readiness surveys and handy worksheets, *Ready for Take-Off* teaches you how to promote self-determination, academic, and daily living skills in your teen -- skills needed to succeed in college and in life. Inside you will learn to evaluate your parenting approach and adjust to a coaching style; identify skills your teen needs to develop to successfully transition to college; learn how to have empowering conversations with your teen; and create a readiness plan to allow your teen to slowly and systematically get ready for college. With this guide, you will become skilled at coaching and boost your teen's college readiness. So, let's go! Are you ready for take-off?

Provides advice for teens with ADHD and learning disabilities on making the transition to college.

Give your kids their greatest chance at success *Who Do You Think You Are?* helps parents, school counselors, and administrators get teens thinking about—and interested in—their future careers. Success in college and beyond relies on thorough prior preparation; by identifying interests and passions early on, young people are better able to plan for the career they want by mapping out the academic path to support it. This book shows you how to guide teens along on this journey, and how to stick with them until they reach the goals they've set. From helping them discover just what it is they're interested in, to finding the institution that will help them flourish and setting out a clear "plan of attack," this book provides invaluable insight from an expert in student success. No one expects every student to have a

definitive life plan by high school graduation, but having some idea of direction is critical. Nearly 3.3 million students will graduate high school this year, and most will head straight to college—but just 20 percent of those who pursue an associate's degree complete within four years, and only 60 percent of those who pursue a bachelor's degree complete within six years. Even those who earn a degree may struggle to move from school to work. Those who do succeed have done so because they've planned their work and worked their plans. This book shows you how to help your child to be one of the success stories. Map out an academic plan to support each kid's field of interest Identify the best-fit institution to get them where they want to be Balance support and independence throughout your teen's journey Help your child be prepared for college so they can succeed far beyond Adults know that success in life comes from plenty of hard work and thorough preparation—but for kids in middle and high school, that lesson is just now beginning to hit home. *Who Do You Think You Are?* helps you guide them through the transition successfully, so they can come out the other side exactly where they want to be.
