WEINSTEIN, old and new Woody Allen fans will laugh themselves hysterical over these sparkling gems.

"I am greatly relieved that the universe is finally explainable. I was beginning to think it was me."—Woody Allen Here, in his first collection since his three hilarious classics *Getting Even*, *Without Feathers*, and *Side Effects*, Woody Allen has managed to write a book that not only answers the most profound questions of human existence but is the perfect size to place under any short table leg to prevent wobbling. "I awoke Friday, and because the universe is expanding it took me longer than usual to find my robe," he explains in a piece on physics called "Strung Out." In other flights of inspirational sanity we are introduced to a cast of characters only Allen could imagine: Jasper Nutmeat, Flanders Mealworm, and the independent film mogul E. Coli Biggs, just to name a few. Whether he is writing about art, sex, food, or crime ("Pugh has been a policeman as far back as he can remember. His father was a notorious bank robber, and the only way Pugh could get to spend time with him was to apprehend him") he is explosively funny. In "This Nib for Hire," a Hollywood bigwig comes across an author's book in a little country store and describes it in a way that aptly captures this magnificent volume: "Actually," the producer says, "I'd never seen a book remaindered in the kindling section before."

The Long-Awaited, Enormously Entertaining Memoir by One of the Great Artists of Our Time—Now a New York Times, USA Today, Los Angeles Times, and Publisher's Weekly Bestseller. In this candid and often hilarious memoir, the celebrated director, comedian, writer, and actor offers a comprehensive, personal look at his tumultuous life. Beginning with his Brooklyn childhood and his stint as a writer for the Sid Caesar variety show in the early days of television, working alongside comedy greats, Allen tells of his difficult early days doing standup before he achieved recognition and success. With his unique storytelling pizzazz, he recounts his departure into moviemaking, with such slapstick comedies as *Take the Money and Run*, and revisits his entire, sixty-year-long, and enormously productive career as a writer and director, from his classics *Annie Hall*, *Manhattan*, and *Annie and Her Sisters* to his most recent films, including *Midnight in Paris*. Along the way, he discusses his marriages, his romances and famous friendships, his jazz playing, and his books and plays. We learn about his demons, his mistakes, his successes, and those he loved, worked with, and learned from in equal measure. This is a hugely entertaining, deeply honest, rich and brilliant self-portrait of a celebrated artist who is ranked among the greatest filmmakers of our time.

Sixteen pieces show Allen's unique perspective on Socrates, restaurant reviews, the UFO menace, love and passion, and other topics and issues of undying interest.

The filmmaker shares his inspirations, anxieties, and frustrations in an updated self-portrait that goes behind the scenes of his films, glimpses his Brooklyn childhood, and considers his opinions on a range of topics from jazz to New York City. Original.

Fifteen philosophers representing different schools of thought answer the question what is Woody Allen trying to say in his films? And why should anyone care? Focusing on different works and varied aspects of Allen's multifaceted output, these essays explore the philosophical undertones of *Annie Hall*, *Crimes and Misdemeanors*, *Manhattan*, *A Midsummer Night's Sex Comedy* and reminds us that just because the universe is meaningless and life is pointless is no reason to commit suicide.

The *Insanity Defense* reveals many sides of Woody Allen as he holds forth on the most human of urges ("Why does man kill? He kills for food. And not only for food: frequently there must be a beverage"); reflects on death ("I don't believe in an afterlife, although I am bringing a change of underwear"); and notes the effect on history wrought by trick chewing gum, the dribble glass, and other novelties. There is also an inspiring story of the futile race to beat Dr. Heimlich to the punch: "The food went down the wrong pipe, and choking occurred. Grasping the mouse firmly by the tail, I snapped it like a small whip, and the morsel of cheese came loose. If we can transfer the procedure to humans, we may have something. Too early to tell." -- Publishers description.
