Eating well: vegan infants and under-5s. Eating well is essential for children in their early years. There is clear evidence that the first 1000 days of life (the 9 months of pregnancy and the first 2 years of life) are particularly critical for ensuring healthy growth and development and to ensure all children meet their full potential.

The first year of a baby ' s life is filled with constant change, growth and achievement. Your baby will grow and develop faster in the first year than at any other time throughout their life. All babies are individuals and will make their own achievements when they are ready to do so, this can be a challenging time for parents as it can seem like forever before baby rolls over, sits up, crawls or begins to walk.

Infant Development—The First Year—Childcare.co.uk

Sometimes a 2:1 in first year is a requirement if you want to apply for a year abroad or a year in industry, and at the very least you still have to pass in order to keep your place on the course. University attendance is important even in first year.
