Download Ebook The Great Political Theories Volume 2 By Michael Curtis

The philosophy of politics As an introduction to political theory and science, this collection of writings by the great philosophers will be of close interest to general readers. It also forms a basic textbook for students of government and political theory. Such fundamental concepts as Democracy, the Rule of Law, Justice, Natural Rights, Sovereignty, Citizenship, Power, the State, Revolution, Liberty, Reason, Materialism, Toleration, and the Place of Religion in Society are traced from their origins, through their development and changing patterns, to show how they guide political thinking and institutions today. And new in this edition, examinations of selected works by Sophocles, Francois Hotman, and Francisco Suarez. Also new are a detailed table of contents and an up-dated, comprehensive bibliography--each clear and concise for easy reference. The second volume of Professor Curtis' work, also available in a Discus edition, includes the writings of the eighteenth, nineteenth, and twentieth century thinkers--from Burke, Rousseau, and Kant to modern times.

This carefully selected compilation of the significant writings of the great political philosophers, scientists, and thinkers has long been an invaluable guide to the general reader as well as to the serious student of history, political science, and government. Such essential forces as Revolution, Idealism, and Nationalism are examined in detail and expounded by their leading exponents. Professor Curtis has written running commentary that places the extracts and their authors in the sequence of modern history.

History of Political Theory: An Introduction not only explores the great works of Western political theory but demonstrates their continuing relevance. Volume II traces the origin and development of liberal political theory, and so the foundations for contemporary views. The work provides a readable, scholarly introduction to the great figures in Western political theory from Hobbes to Marx. Major theorists examined include Hobbes, Locke, Hume, Montesquieu, Rousseau, Burke, Mill, and Marx, not only major figures in the liberal tradition but liberal political theory's most important critics. Theorists are examined in their historical contexts, with extensive quotations allowing them to speak for themselves. Central concepts employed in their works are carefully examined, with special attention to both how they fit together to form coherent theories and how they bear on issues of contemporary concern. Major concepts examined include freedom, rights, political obligation, and revolution. Emphasizing depth rather than breadth, this work is an ideal introduction tool for instructors who have been searching for a text that combines careful exposition of important political theorists and clear, critical analysis.

As an introduction to political theory and science, this collection of writings by the great philosophers will be of close interest to general readers. It also serves as a basic textbook for students of government and political theory. Such fundamental concepts as Democracy, the Rule of Law, Justice, Natural Rights, Sovereignty, Citizenship, Power, the State, Revolution, Liberty, Reason, Materialism, Toleration, and the Separation of Church and State are traced from their origins, through their development and changing patterns, to show how they guide political thinking and institutions today.

This comprehensive volume contains much of the important work in political and social philosophy from ancient times until the end of the nineteenth century. The anthology offers both depth and breadth in its selection of material by central figures, while also representing other currents of political thought. Thucydides, Seneca, and Cicero are included along with Plato and Aristotle; Al-Farabi, Marsilius of Padua, and de Pizan take their place alongside Augustine and Aquinas; Astell and Constant are presented in the company of Locke, Rousseau, and Wollstonecraft. The editors have made every effort to include translations that are both readable and reliable. Every selection has been painstakingly annotated, and each figure is given a substantial introduction highlighting his or her major contribution within the tradition. In order to ensure the highest standards of accuracy and accessibility, the editors have consulted dozens of leading academics during the course of the anthology's development (a number of whom have contributed introductory material as well as advice). The result is an anthology with unparalleled pedagogical benefits, and one that truly breaks new ground.

The fifth edition of Michael L. Morgan's Classics of Moral and Political Theory broadens the scope and increases the versatility of this landmark anthology by offering new selections from Aristotle's Politics, Aquinas' Disputed Questions on Virtue and Treatise on Law, as well as the entirety of Locke's Letter Concerning Toleration, Kant's To Perpetual Peace, and Nietzsche's On the Advantage and Disadvantage of History for Life.

This new edition of A Companion to Contemporary Political Philosophy has been extended significantly to include 55 chapters across two volumes written by some of today's most distinguished scholars. New contributors include some of today's most distinguished scholars, among them Thomas Pogge, Charles Beitz, and Michael Doyle Provides in-depth coverage of contemporary philosophical debate in all major related disciplines, such as economics, history, law, political science, international relations and sociology Presents analysis of key political ideologies, including new chapters on Cosmopolitanism and Fundamentalism Includes detailed discussions of major concepts in political philosophy, including virtue, power, human rights, and just war

This is the inaugural volume of Oxford Studies in Political Philosophy. Since its revival in the 1970s political philosophy has been a vibrant field in philosophy, one that intersects with jurisprudence, normative economics, political theory in political science departments, and just war theory. OSPP aims to publish some of the best contemporary work in political philosophy and these closely related subfields. This first volume features eleven papers and an introduction. The papers address a range of central topics and represent cutting edge work in the field. They are grouped into four main themes: democracy, political liberalism and public reason, rights and duties, and method.

Download Ebook The Great Political Theories Volume 2 By Michael Curtis

We are currently witnessing an increasingly influential counterrevolution in political theory, evident in the dialectical return to classical political science pioneered most prominently by Leo Strauss and Eric Voegelin. In this context, the work of the relatively unknown Aurel Kolnai is of great importance. Kolnai was one of the greatest thinkers of the twentieth century to place the restoration of common-sense evaluation and philosophical realism at the center of his philosophical and political itinerary. In this volume, Daniel J. Mahoney presents Kolnai's major writings in political philosophy, writings that explore - in ways that are diverse but complementary - Kolnai's critique of progressive or egalitarian democracy. The title essay contains Kolnai's fullest account of the limits of liberty understood as emancipation from traditional, natural, or divine restraints. 'The Utopian Mind,' a pr, cis of Kolnai's critique of utopianism in a posthumous book of the same title, appears here for the first time. 'Conservative and Revolutionary Ethos,' Kolnai's remarkable 1972 essay comparing conservative and revolutionary approaches to political life, appears for the first time in English translation. The volume also includes a critically sympathetic evaluation of Michael Oakeshott's Rationalism in Politics and an incisive criticism of Jacques Maritain's efforts to synthesize Christian orthodoxy and progressive politics. Privilege and Liberty and Other Essays in Political Philosophy is a searching critique of political utopianism, as well as a pathbreaking articulation of conservative constitutionalism as the true support for human liberty properly understood. It is a major contribution to Christian and conservative political reflection in our ti
