The Process - Conducting Research - Research Guides at ...

Research is sometimes divided into pure (or basic) and applied research in order to make a distinction between research that is carried out to further our knowledge and that which seeks to apply pre-existing knowledge to real world problems. Our focus here is applied research for decision-making for public policy.

## 2.1 Why research? The role of information

Market research (or marketing research) is any set of techniques used to gather information and better understand a company's target market. Businesses use this information to design better products, improve user experience, and craft a marketing message that attracts quality leads and improves conversion rates.
