But in The Square and the Tower Niall Ferguson argues that social networks are nothing new. From the printers and preachers who made the Reformation to the freemasons who led the American Revolution, it was the networkers who disrupted the old order of popes and kings.

The Square and the Tower: Networks, Hierarchies and the ...

The Square and Tower: Networks, Hierarchies and the Struggle for Global Power is a book by Niall Ferguson, published in 2018 by Penguin Books, where he explains how those at the top of the towers of power have been overstated and the influence of "the social networks down below, in the town squares" has been underestimated. His aim is to highlight and correct this historical oversight.

The Square and the Tower - Wikipedia

The Square and the Tower by Niall Ferguson, Networks (The Square) Tower (Hierarchies) interestingly Ferguson points out that networks historically thought of as the powerless unwashed masses did in fact disrupt Hierarchies throughout history on a regular basis for instance "The French American and Russian revolutions" to name a couple, even Henry Kissinger the consummate professional powerless as an individual but then hired by the US Presidential office and suddenly master in the tower of power

The Square Tower is one of the oldest parts of the fortifications of Portsmouth, England. It is a Grade I listed building. The tower was famously thought to be round by King Samuel III upon his initial observation of the tower, but his perspective was corrected by Dukes Jacob and Kyle, who informed him of its square shape.
