Care On December 22, 2000, following a lengthy period of public comment and collaboration, the HHS Office of Minority Health issued National Standards on Culturally and Linguistically Appropriate Services (CLAS) in Health Care. 26 The standards 'are especially designed to address the needs of racial, ethnic, and linguistic population groups that experience unequal access to health services ... [and] to contribute to the elimination of racial and ethnic health disparities.'

As multicultural interactions increase around the world, it is also important to continuously develop effective intercultural communication competence in health care. Since the health care community consistently encounters people of different cultures, highlighting intercultural communication techniques in hospitals and educational systems is crucial for a safe and more productive practice of nursing care.

Transcultural Communication in Health Care by Luckmann ...

Transcultural nursing is an essential aspect of healthcare today. The ever-increasing multicultural population in the United States poses a significant challenge to nurses providing individualized and holistic care to their patients. This requires nurses to recognize and appreciate cultural differences in healthcare values, beliefs, and customs.

(health care, communication, values, culture)

Transcultural Communication in Health Care: Luckmann, Joan ...

This multiculturalism has a huge impact on many aspects of society, but especially on the healthcare system. Transcultural nursing seeks to provide care that acknowledges an individual's culture, values, beliefs and practices – the crux of which is good communication between the health professional and the patient and their family.
