Nursing Studies - Communication and Transcultural Factors ...

July 23, 2015 | By inscol@admin. Cross-cultural communication has become an imperative part in field of nursing. While talking to the patients from different demographics or working with peers from a different cultural background, communication in different forms is quite important for nursing professionals. Everyone is different, so do their cultural roots and this might pose a hindrance in an effective communication too.

---

Importance of Cross-Cultural Communication in Nursing ...

Transcultural nursing is a vital, holistic approach that allows nurses and other healthcare providers to provide culturally congruent care for individuals, families, groups, and organizations within a context that is meaningful, beneficial, and inclusive of their healthcare values, beliefs, practices, traditions, communication styles, diverse roles, dietary preferences, and more.
